(See "Book-Entry Only System" under *The Notes*)

*In the opinion of Bond Counsel, under existing law and assuming compliance with the tax covenants described herein, and the accuracy of certain representations and certifications made by the Commonwealth described herein, interest on the Notes is excluded from gross income for Federal income tax purposes under Section 103 of the Internal Revenue Code of 1986, as amended (the "Code"). Bond Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the Notes is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations. Bond Counsel is further of the opinion that, under existing law, interest on the Notes is exempt from state, Commonwealth and local income taxation. See "TAX MATTERS" herein regarding certain other tax considerations.*

**\$800,000,000**  
**COMMONWEALTH OF PUERTO RICO**  
**Tax and Revenue Anticipation Notes**  
**Series 2005**

Dated: Date of Delivery  
Due: July 29, 2005

Yield: 1.65%  
Interest Rate: 3.00%

The Notes bear interest at the annual rate shown above, computed on the basis of twelve 30-day months and a 360-day year. Principal of and interest on the Notes are payable in immediately available funds at maturity. The Notes are not subject to redemption prior to maturity. The Notes are issuable in fully registered form in denominations of \$5,000 and any integral multiple thereof.

**The Notes constitute direct obligations of the Commonwealth of Puerto Rico and are payable solely from taxes and revenues in the General Fund collected after the date of issuance of the Notes and on or prior to June 30, 2005, as described herein. The Secretary of the Treasury is required to deposit such taxes and revenues, in the manner set forth herein and after certain prior applications, in the Note Fund in an amount sufficient to provide for the payment of principal of and interest on the Notes. Moneys in the Note Fund are subject to prior application for the payment of the general obligation bonds and notes of the Commonwealth of Puerto Rico and bonds and notes of its public corporations guaranteed by the Commonwealth of Puerto Rico to the extent other moneys are not available for such purpose. Neither the full faith, credit and taxing power of the Commonwealth of Puerto Rico nor that of any of its political subdivisions are pledged for the payment of principal of or interest on the Notes.**

The Notes are offered when, as and if issued and accepted by the Underwriters, subject to the approval of legality by Nixon Peabody LLP, New York, New York, Bond Counsel, and certain other conditions. Certain legal matters will be passed upon for the Underwriters by McConnell Valdés, San Juan, Puerto Rico. It is expected that settlement for the Notes, in immediately available funds, will occur in San Juan, Puerto Rico, on or about October 6, 2004.

**Series 2005**

**INTRODUCTORY STATEMENT**

This Official Statement sets forth certain information about the Commonwealth of Puerto Rico (the “Commonwealth” or “Puerto Rico”) and the \$800,000,000 Tax and Revenue Anticipation Notes of the Commonwealth of Puerto Rico, Series 2005 (the “Notes”).

The Notes are being issued under Act No. 1, approved by the Legislature of Puerto Rico on June 26, 1987 (the “Act”), and pursuant to a resolution adopted by the Acting Secretary of the Treasury on September 24, 2004 and approved by the Governor of Puerto Rico (the “Note Resolution”), for the purpose of: (i) funding a portion of the projected cash flow requirements of the Commonwealth’s General Fund in fiscal 2005, which requirements result from timing differences between expected disbursements and receipts of taxes and revenues, and (ii) paying certain of the costs of issuance of the Notes.

Without the issuance of the Notes, the Commonwealth estimates that the General Fund would incur monthly cash deficits which would reach a cumulative maximum deficit of approximately \$1.047 billion in November 2004. For a breakdown of the fiscal 2005 General Fund cash flow projections, before and after taking into account the issuance of the Notes, see “General Fund Monthly Cash Flow for Fiscal 2004 and Fiscal 2005” under *The Notes*.

The Notes constitute direct obligations of the Commonwealth payable solely from the taxes and revenues in the General Fund collected by the Secretary of the Treasury after the date of issuance of the Notes and on or prior to June 30, 2005 and deposited in a special fund (the “Note Fund”) for the payment of principal of and interest on the Notes as more fully described herein. All moneys in the Note Fund required for such purpose shall be used to pay the principal of and the interest on the Notes at maturity and shall be used for no other purpose; provided, however, that pursuant to certain constitutional and statutory authorizations, payments on general obligation bonds and notes of the Commonwealth and on bonds and notes of its public corporations guaranteed by the Commonwealth have a claim on Commonwealth taxes and revenues, including amounts on deposit in the Note Fund, prior to the claim thereon of the Notes.

The Secretary of the Treasury covenants in the Note Resolution to compute, on a monthly basis, projected revenues, expenditures and fund balances of the General Fund, commencing on November 10, 2004, in order to make certain debt service coverage calculations to ensure the full and timely payment of the Notes.

Neither the full faith, credit and taxing power of the Commonwealth nor that of any of its political subdivisions are pledged for the payment of principal of or interest on the Notes. The Commonwealth does not have any notes outstanding on a parity with the Notes, and the Secretary of the Treasury covenants in the Note Resolution not to issue any parity notes, except notes issued pursuant to the Act.

For a discussion of the security for the Notes, see “Payment of and Security for the Notes” under *The Notes*.

This Official Statement includes the Commonwealth of Puerto Rico Financial Information and Operating Data Report dated as of August 1, 2004 (the “Commonwealth Report”) attached hereto as *Appendix I*, the proposed Bond Counsel Opinion attached hereto as *Appendix II* and the Comprehensive Annual Financial Report of the Commonwealth for the fiscal year ended June 30, 2003, prepared by the Department of the Treasury of the Commonwealth (the “Commonwealth’s Annual Financial Report”), which is incorporated by reference herein.

The Commonwealth Report attached hereto as *Appendix I* includes important information about the Commonwealth, including information about the economy, historical revenues and expenditures of the Commonwealth’s General Fund, the year-end results for the fiscal 2004 budget, the approved budget for fiscal 2005, and the debt of the Commonwealth’s public sector, and should be read in its entirety.

The Commonwealth’s Annual Financial Report includes the basic financial statements of the Commonwealth for the fiscal year ended June 30, 2003, together with the independent auditor’s report thereon, dated June 9, 2004, of

KPMG LLP, certified public accountants. The Commonwealth's Annual Financial Report has been filed by the Commonwealth with each nationally recognized municipal securities information repository ("NRMSIR"). KPMG LLP did not audit the financial statements of the Public Buildings Authority capital project fund (a major fund), and certain activities, funds and component units separately identified in their report. Those financial statements were audited by other auditors whose reports have been furnished to KPMG LLP, and their opinion as to the basic financial statements, insofar as it relates to the amounts included in the basic financial statements pertaining to such activities, funds and component units, is based solely on the reports of the other auditors.

Any appendix of an Official Statement of the Commonwealth or of any instrumentality of the Commonwealth containing any revision to the Commonwealth Report, or to the Commonwealth's Annual Financial Report that is filed with each NRMSIR and the Municipal Securities Rulemaking Board ("MSRB"), or any new or revised Commonwealth Report or Commonwealth Annual Financial Report, or other document containing information that modifies or supersedes the information contained in the Commonwealth Report or in the Commonwealth's Annual Financial Report that is filed with each NRMSIR, in each case after the date hereof and prior to the termination of the offering of the Notes, shall be deemed to be incorporated by reference into this Official Statement and to be part of this Official Statement from the date of filing of such document. Any statement contained in the Commonwealth's Annual Financial Report shall be deemed to be modified or superseded for purposes of this Official Statement to the extent that a statement contained herein or in any such subsequently filed document modifies or supersedes such statement. Any statement contained in the Commonwealth Report or elsewhere herein shall also be deemed to be modified or superseded to the extent that a statement contained in any such subsequently filed document modifies or supersedes such statement. Any such statement so modified or superseded shall not be deemed, except as so modified or superseded, to constitute a part of this Official Statement.

The Commonwealth will provide without charge to any person to whom this Official Statement is delivered, on the written or oral request of such person, a copy of the Commonwealth's Annual Financial Report. Requests should be directed to Director-New York Office, Government Development Bank for Puerto Rico, 140 Broadway, 38<sup>th</sup> Floor, New York, New York 10005, telephone number (212) 422-6420 or to Director-General Obligations Division, Government Development Bank for Puerto Rico, P.O. Box 42001, San Juan, Puerto Rico 00940, telephone number (787) 722-7060.

A copy of the Commonwealth's Annual Financial Report may also be obtained by contacting a NRMSIR. The address of each NRMSIR is set forth in *Continuing Disclosure* below.

This Official Statement, including information incorporated in this Official Statement by reference, contains certain "forward-looking statements" concerning the Commonwealth's operations and financial condition. These statements are based upon a number of assumptions and estimates which are subject to significant uncertainties, many of which are beyond the control of the Commonwealth. The words "may," "would," "could," "will," "expect," "anticipate," "believe," "intend," "plan," "estimate" and similar expressions are meant to identify these forward-looking statements. Actual results may differ materially from those expressed or implied by these forward-looking statements.

## OVERVIEW

Puerto Rico is located approximately 1,600 miles southeast of New York City. According to the United States Census Bureau, its population was 3,808,610 in 2000. Puerto Rico's political status is that of a commonwealth. The United States and the Commonwealth share a common defense, market, currency and citizenship. The Commonwealth government exercises virtually the same control over its internal affairs as is exercised by the state governments of each of the fifty states over their respective internal affairs, with similar separation of powers among the executive, legislative and judicial branches. It differs from the states, however, in its relationship with the federal government. The people of Puerto Rico are citizens of the United States but do not vote in national elections. They are represented in Congress by a Resident Commissioner who has a voice in the House of Representatives but no vote. Most federal taxes, except those such as Social Security taxes, which are imposed by mutual consent, are not levied in Puerto Rico. No federal income tax is collected from Puerto Rico residents on income earned in Puerto Rico, except for certain federal employees who are subject to taxes on their salaries. The official languages of Puerto Rico are Spanish and English.

The Constitution of Puerto Rico limits the amount of general obligation debt the Commonwealth can issue, and provides that public debt of the Commonwealth will constitute a first claim on available Commonwealth revenues. The

Commonwealth's policy has been and continues to be to maintain the level of such debt within a prudent range below the constitutional limitation.

Fiscal responsibility for the Commonwealth is shared among the Department of the Treasury, the Office of Management and Budget, and the Government Development Bank for Puerto Rico ("Government Development Bank"). The Department of the Treasury is responsible for collecting most of the Commonwealth's revenues, overseeing preparation of its financial statements, and contributing to the preparation of the budget. The Office of Management and Budget prepares the Commonwealth's budget and is responsible for monitoring expenditures. Government Development Bank is the fiscal agent and financial advisor to the Commonwealth and its agencies, public corporations and municipalities, and coordinates the management of public finances.

Additional information about the Commonwealth can be found in the Commonwealth Report attached hereto as *Appendix I*, including information about the economy, historical revenues and expenditures of the Commonwealth's General Fund, the year-end results for the fiscal 2004 budget, the approved budget for fiscal 2005, and the debt of the Commonwealth's public sector. The Commonwealth Report should be read in its entirety.

## **RECENT DEVELOPMENTS**

### *Tropical Storm Jeanne*

On September 15, 2004, Tropical Storm Jeanne passed directly over Puerto Rico causing significant damage throughout the island. The island was declared an emergency zone by President George W. Bush, thus making it eligible for emergency assistance from the Federal Emergency Management Agency ("FEMA"). Most losses to government and private property are expected to be covered by private insurance, FEMA emergency aid and local government assistance programs.

The day after the tropical storm struck, much of the island was without water and 100% of the Electric Power Authority's customers did not have electricity. The Commonwealth has been able to restore these utility services at a faster pace than had been experienced during prior hurricane recovery programs. To date, water service has been restored to more than 97% of the Aqueduct and Sewer Authority customers and electrical power has been restored to more than 99.4%.

The Commonwealth is currently in the process of determining the total impact of Tropical Storm Jeanne on the Commonwealth's economy. While some sectors of the economy, like agriculture, suffered more than others, it is expected that its general impact will not be material.

### *Proposal for Tax Restructuring*

The Commonwealth is evaluating a revenue-positive tax restructuring which includes the imposition of a consumption tax and a lowering of the current income tax rates applicable to middle income taxpayers. This restructuring is intended to expand the taxpayer base significantly. The Commonwealth expects that, if adopted, this tax restructuring will represent a net increase in tax revenues, beginning in fiscal year 2006.

On September 15, 2004, the Governor signed legislation that establishes the principles and objectives that will guide the evaluation and implementation of this future tax restructuring. According to this legislation, the adoption of any tax restructuring legislation by the Legislature of Puerto Rico shall aim to alleviate the tax burden of the middle class taxpayer by significantly reducing current income tax rates without hindering economic growth, control effectively tax evasion and expand the taxpayer base, simplify the current tax system in an effort to make it easy to understand and administrate, and provide the necessary resources in order to achieve balanced economic growth.

This proposed tax restructuring is subject to the drafting and passage of new legislation by the Legislature of Puerto Rico. Despite the adoption of legislation establishing the objectives of the proposed tax restructuring, it remains subject to significant political and implementation risks. Therefore, no assurance can be given that the proposed tax restructuring will be implemented.

### *Change in Moody's Outlook on the Commonwealth's Outstanding Debt*

On September 21, 2004, Moody's Investors Service, Inc. ("Moody's") announced that it was changing its ratings outlook on the Commonwealth's outstanding debt to negative from stable. This outlook change reflects Moody's concern over the Commonwealth's financial performance, particularly the balancing of General Fund operations with loans from Government Development Bank of \$250 million and \$233 million for fiscal years 2003 and 2004, respectively, the structural imbalance in the fiscal year 2005 budget which will require a loan from Government Development Bank of \$550 million, and the 17% funding ratio of the Employees Retirement System of the Commonwealth and its instrumentalities (the "Employees Retirement System"). See *Retirement Systems* in the Commonwealth Report (Appendix I). The Commonwealth currently plans on addressing the structural imbalance referenced above with the expected additional net tax revenues resulting from the proposed tax restructuring discussed above, the normal annual increases in General Fund revenues, and new and existing initiatives to reduce expenditures, and is evaluating alternatives to improve the funding ratio of the Employees Retirement System.

### *Unfunded Pension Benefit Obligation of the Retirement System*

The Employees Retirement System expects to receive during October 2004 a new actuarial valuation of its pension benefit obligation from its independent consulting actuaries. Based on a preliminary indication from such actuaries, the Employees Retirement System expects that, as of June 30, 2003, its total unfunded pension benefit obligation, as estimated by the actuaries, is approximately \$11 billion, resulting in a funding ratio of 15%. The Employees Retirement System is discussing some of the assumptions utilized by the actuaries to determine the pension benefit obligation that, if revised, could reduce the final actuarial value of such obligation.

During fiscal year 2004 the disbursement of benefits by the Employees Retirement System exceeded the contributions and investment income which it received, resulting in a need to liquidate some assets to make benefit payments. Failure to address this cash flow imbalance will result in additional reductions in the assets of the Employees Retirement System and an increase in its unfunded pension benefit obligation. The Employees Retirement System is currently evaluating alternatives to reduce its unfunded pension benefit obligation and increase its revenues. See *Retirement Systems* in the Commonwealth Report (Appendix I).

## THE NOTES

### **General**

The Notes are dated their date of delivery, mature on July 29, 2005, and bear interest at the rate set forth on the cover of this Official Statement. Interest is computed on the basis of twelve 30-day months and a 360-day year. The Notes are issuable in fully registered form in denominations of \$5,000 and any integral multiple thereof. The Notes are not subject to redemption prior to maturity. Principal of and interest on the Notes are payable in immediately available funds at maturity.

### **Book-Entry Only System**

The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the Notes. The Notes will be issued as fully-registered Notes registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Note certificate will be issued for the Notes in the aggregate principal amount of such issue, and will be deposited with DTC. If, however, the aggregate principal amount of such issue exceeds \$400 million, one certificate will be issued with respect to each \$400 million of principal amount and an additional certificate will be issued with respect to any remaining principal amount of such issue.

DTC, the world's largest depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds securities that its participants ("Direct Participants") deposit with DTC. DTC also facilitates the settlement among Direct Participants of securities transactions such as transfer and pledges in deposited securities through electronic computerized book-entry changes in Direct Participants' accounts, thereby eliminating the need for physical movement of securities

certificates. Direct Participants include securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is owned by a number of Direct Participants and the New York Stock Exchange, Inc., the American Stock Exchange LLC, and the National Association of Securities Dealers, Inc. Access to the DTC system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly (“Indirect Participants”). The Rules applicable to DTC and its Direct and Indirect Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at [www.dtcc.com](http://www.dtcc.com).

Purchases of Notes under the DTC system must be made by or through Direct Participants, which will receive a credit for the Notes on DTC’s records. The ownership interest of each actual purchaser of each Note (“Beneficial Owner”) is in turn to be recorded on the Direct and Indirect Participants’ records. Beneficial Owners will not receive written confirmation from DTC of their purchase, but Beneficial Owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Notes are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Notes, except in the event that use of the book-entry system for the Notes is discontinued.

To facilitate subsequent transfers, all Notes deposited by Direct Participants with DTC are registered in the name of DTC’s partnership nominee, Cede & Co. or such other name as may be requested by an authorized representative of DTC. The deposit of Notes with DTC and their registration in the name of Cede & Co. or such other nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Notes; DTC’s records reflect only the identity of the Direct Participants to whose accounts such Notes are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither DTC nor Cede & Co. (nor such other DTC nominee) will consent or vote with respect to the Notes. Under its usual procedures, DTC mails an Omnibus Proxy to the Commonwealth as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.’s consenting or voting rights to those Direct Participants to whose accounts the Notes are credited on the record date (identified in a listing attached to the Omnibus Proxy).

Redemption proceeds, distributions, and dividend payments on the Notes will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC’s practice is to credit Direct Participants’ accounts, upon DTC’s receipt of funds and corresponding detail information from the Commonwealth or Government Development Bank as paying agent (the “Paying Agent”) on payable date in accordance with their respective holdings shown on DTC’s records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in “street name,” and will be the responsibility of such Participant and not of DTC, nor its nominee, the Paying Agent, or the Commonwealth, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of the Commonwealth or the Paying Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

DTC may discontinue providing its services as securities depository with respect to the Notes at any time by giving reasonable notice to the Commonwealth or the Paying Agent. Under such circumstances, in the event that a successor securities depository is not obtained, Note certificates are required to be printed and delivered.

The Commonwealth may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Note certificates will be printed and delivered to DTC.

The information in this section concerning DTC and DTC’s book-entry system has been obtained from sources that the Commonwealth believes to be reliable, but the Commonwealth takes no responsibility for the accuracy thereof.

## Authorization of Notes

Section 2 of Article VI of the Constitution of the Commonwealth provides that the power of the Commonwealth to contract and to authorize the contracting of debts shall be exercised as determined by the Legislature. Pursuant to this power, the Legislature enacted the Act which authorizes the issuance of the Notes. The Notes are issued pursuant to the Act and the Note Resolution adopted by the Acting Secretary of the Treasury and approved by the Governor. As part of the authorization process for the Notes, GDB, as financial advisor and fiscal agent to the Commonwealth (see *Government Development Bank for Puerto Rico* under *Public Corporations* in the Commonwealth Report (Appendix I)) has reviewed and made its favorable recommendations as to the Notes.

## Purpose of the Notes

The Notes are being issued to (i) fund a portion of the Commonwealth's projected cash requirements for fiscal 2005, which requirements result from timing differences between expected disbursements and receipts of taxes and revenues, and (ii) pay certain of the costs of issuance of the Notes.

## Payment of and Security for the Notes

### *Provision for Payment of the Notes*

The Notes are direct obligations of the Commonwealth. The Notes are payable solely from the taxes and revenues in the General Fund collected by the Secretary of the Treasury after the date of issuance of the Notes and on or prior to June 30, 2005 and deposited in the Note Fund. After any required transfers from the General Fund to the Special Fund for the Amortization of General Obligations Evidenced by Bonds and Promissory Notes (the "Redemption Fund"), the Secretary of the Treasury, beginning April 1, 2005, will withdraw from the General Fund all taxes and revenues required to be deposited therein from April 1, 2005 until June 30, 2005, together with any taxes and revenues collected after the issuance of the Notes and then on deposit in the General Fund. Such taxes and revenues will be deposited in the Note Fund until the amount on deposit in the Note Fund in the months indicated below equals the following percentages of the sum of the principal of and interest on the Notes due at maturity (such sum being herein called the "Note Fund Requirement"):

<u>2005</u>	<u>Percentage of Note Fund Requirement</u>
April	33 $\frac{1}{3}$ %
May	66 $\frac{2}{3}$ %
June	100%

The Secretary of the Treasury covenants in the Note Resolution to compute on a cash basis on or before the tenth day of each month, commencing November 10, 2004, projected taxes and revenues expected to be deposited in, expenditures from, and fund balances of the General Fund for each month remaining in fiscal 2005. If, on the basis of such computations, the Secretary of the Treasury determines that the Note Fund Requirement less any amount then on deposit in the Note Fund equals or exceeds 85% of the sum of all taxes and revenues expected to be deposited in the General Fund from the later of the date of such determination and April 1, 2005 through June 30, 2005 after accounting for any required transfers from the General Fund to the Redemption Fund, the Secretary of the Treasury shall immediately withdraw sufficient amounts of taxes and revenues as received from the General Fund, shall make any required transfers to the Redemption Fund, and thereafter shall transfer to the Note Fund sufficient amounts of such taxes and revenues as received as will cause the amount on deposit in the Note Fund to equal the Note Fund Requirement.

All moneys in the Note Fund shall be used to pay principal of and interest on the Notes at maturity and shall be used for no other purpose; provided, however, that pursuant to certain constitutional and statutory authorizations, payments on general obligation bonds and notes of the Commonwealth and on bonds and notes of its public corporations guaranteed by the Commonwealth have a claim on Commonwealth taxes and revenues, including amounts on deposit in the Note Fund, prior to the claim thereon of the Notes.

Neither the full faith, credit and taxing power of the Commonwealth nor that of any of its political subdivisions are pledged for the payment of principal of or interest on the Notes.

*Provision for Prior Payment of Full Faith and Credit Obligations of the Commonwealth*

The Constitution of Puerto Rico provides that public debt of the Commonwealth constitutes a first lien on available Commonwealth taxes and revenues. Public debt includes bonds and notes of the Commonwealth to which the full faith, credit and taxing power of the Commonwealth are pledged and, according to opinions heretofore rendered by the Secretary of Justice of the Commonwealth, any payments which are required to be made by the Commonwealth under its guarantees of bonds and notes issued by its public corporations. The Notes do not constitute public debt.

Under the provisions of Act No. 39 of the Legislature of Puerto Rico, approved May 13, 1976, as amended, the Secretary of the Treasury is obligated to fund annual debt service on general obligation bonds and notes of the Commonwealth by monthly deposits into the Redemption Fund. As of September 7, 2004, the amount on deposit in the Redemption Fund was \$72.9 million which was the required amount. Fiscal 2005 deposits from the General Fund to the Redemption Fund to fund the projected debt service through July 1, 2005, exclusive of debt service on any general obligation bonds that may be issued in fiscal 2005, are expected to total \$370.0 million.

Moneys in the Redemption Fund are not available to pay the Notes.

*Debt Limitation with Respect to Full Faith and Credit Obligations*

Section 2 of Article VI of the Constitution of Puerto Rico provides that direct obligations of the Commonwealth evidenced by full faith and credit bonds or notes shall not be issued if the amount of the principal of and interest on such bonds and notes and on all such bonds and notes theretofore issued which is payable in any fiscal year, together with any amount paid by the Commonwealth in the preceding fiscal year on account of bonds or notes guaranteed by the Commonwealth, exceeds 15% of the average annual revenues raised under the provisions of Commonwealth legislation and entered into the Treasury of Puerto Rico (hereinafter "internal revenues") in the two fiscal years preceding the then current fiscal year. Section 2 of Article VI does not limit the amount of debt that the Commonwealth may guarantee so long as the 15% limitation is not exceeded. Internal revenues consist principally of income taxes, property taxes and excise taxes. Certain revenues, such as federal excise taxes on offshore shipments of alcoholic beverages and tobacco products and customs duties, which are collected by the United States Government and returned to the Treasury of Puerto Rico, and motor vehicle fuel taxes and license fees, which are allocated to the Puerto Rico Highway Authority, are not included as internal revenues for the purpose of calculating the debt limit, although they may be available for the payment of debt service. For additional information regarding the Commonwealth debt, see *Debt* in the Commonwealth Report (Appendix I).

On December 21, 1995, Puerto Rico Aqueduct and Sewer Authority ("PRASA") issued \$400,340,000 Puerto Rico Aqueduct and Sewer Authority Refunding Bonds guaranteed by the Commonwealth (the "PRASA Guaranteed Bonds") of which \$318.1 million are currently outstanding. On January 2, 1997, the Commonwealth began to make payments of debt service on the PRASA Guaranteed Bonds under the full faith and credit guarantee of the Commonwealth. The amount paid by the Commonwealth under the PRASA Guaranteed Bonds will be taken into account for purposes of computing the above described 15% constitutional debt limitation.

All or a portion of the proceeds of certain refunding bonds issued by the Commonwealth were invested in guaranteed investment contracts or federal agency securities (in each case rated in the highest rating category by Moody's Investors Service and Standard & Poor's Rating Services, a division of The McGraw-Hill Companies Inc.), none of which is eligible to be used for legal defeasance under Puerto Rico law ("non-eligible investments"). Since bonds refunded with proceeds invested in non-eligible investments are not legally defeased, such bonds are treated as outstanding for purposes of the 15% debt limitation.

Upon the enactment of legislation currently pending that will expressly authorize the Commonwealth to enter into interest rate exchange agreements with respect to the Commonwealth's \$447,875,000 Public Improvement Refunding Bonds, Series 2004 B (the "Series 2004 B Bonds"), which were issued as variable rate bonds, the Commonwealth will be permitted to calculate the constitutional debt limitation using (i) the fixed rate it is required to pay under any interest rate exchange agreement entered into by the Commonwealth in connection with the Series 2004 B Bonds, and (ii) the lesser of (A) the maximum interest rate allowed by law, and (B) the maximum interest rate set forth in the resolution approving the bonds, if any, in connection with the Commonwealth's \$279,240,000 Public Improvement Refunding Bonds, Series 2004 A (the "Series 2004 A Bonds") and any Series 2004 B Bonds for which no interest rate exchange agreement is executed. The Commonwealth expects to enter into two interest rate exchange agreements with respect to the Series 2004 B Bonds.

Concurrently with the issuance of the Notes, the Commonwealth intends to issue its \$440,460,000 Public Improvements Bonds of 2005, Series A and its \$93,790,000 Public Improvements Bonds of 2005, Series B (both series together, the "2005 GO Bonds"). After giving effect to the issuance of the 2005 GO Bonds, future maximum annual debt service for the Commonwealth's outstanding general obligation debt is \$711,522,695 occurring in the fiscal year ending June 30, 2006 (based on the assumption that the Series 2004 A Bonds bear interest at their actual rate per annum through July 1, 2012 and thereafter at 12% per annum and the Series 2004 B Bonds bear interest at the fixed rate paid by the Commonwealth under the interest rate exchange agreement to be executed in connection with such bonds). Debt service for the PRASA Guaranteed Bonds paid by the Commonwealth during fiscal year 2004 (including for this purpose debt service payments due July 1, 2004) was \$30,125,458. The sum of those amounts (\$741,648,153) is equal to 9.97% of \$7,439,000,000, which is the average of the adjusted internal revenues for the two fiscal years ended June 30, 2003 and June 30, 2004. If the bonds refunded with non-eligible investments described above were treated as not being outstanding, the percentage referred to in the preceding sentence would be 9.23%.

The Notes are not subject to the above described constitutional debt limitation.

#### *Estimated Note Revenues*

The Commonwealth estimates that the taxes and revenues available for deposit in the Note Fund for fiscal 2005 (consisting of taxes and revenues projected to be collected after the issuance of the Notes and prior to June 30, 2005, minus required deposits to the Redemption Fund) will be approximately \$6.2 billion. For fiscal 2004, taxes and revenues which would have been available for deposit in the Note Fund were approximately \$5.9 billion.

#### **Debt Limitation with Respect to Additional Parity Notes**

The aggregate principal amount of notes issued under the Act with respect to any fiscal year and outstanding at any time shall not exceed \$800,000,000. The Act provides that any notes issued thereunder shall mature on such date or dates not exceeding 30 days after the close of the fiscal year in which such notes are issued. The Commonwealth has issued notes under the Act for prior fiscal years, which notes have since matured and been paid in full. No notes of the Commonwealth are currently outstanding under the Act.

Under the Note Resolution, the Secretary of the Treasury covenants not to issue additional obligations payable on a parity with the Notes except for additional notes issued under the Act. Any additional notes issued under the Act during fiscal 2005 may not mature prior to July 30, 2005 pursuant to the Note Resolution. Unless said Notes are retired before June 30, 2005 (an eventuality not currently contemplated by the Commonwealth), the Act will preclude the issuance of additional notes because the principal amount of the Notes offered hereby is \$800,000,000.

#### **Payment Record**

The Commonwealth has never defaulted on the payment of principal of or interest on any of its debt.

#### **General Fund Monthly Cash Flow for Fiscal 2004 and Fiscal 2005**

The Secretary of the Treasury has custody of the funds of the Commonwealth's central government and is responsible for the accounting, disbursement and investment of such funds. The General Fund is the primary operating fund of the Commonwealth. General Fund revenues are broadly based and include revenues raised internally as well as those from non-Puerto Rico sources. Internal revenues consist principally of income taxes and excise taxes. Revenues from non-Puerto Rico sources are derived from federal excise taxes and customs duties returned to the Commonwealth. The primary expenditures of the Commonwealth through the General Fund are for grants and subsidies, and personal and other services. A detailed description of the Commonwealth's major sources of General Fund revenues and components of General Fund expenditures, along with a Summary and Management's Discussion of the General Fund results for fiscal years 2001 through 2004 and a comparison of the 2005 budget with the preliminary fiscal 2004 results, appears under *Puerto Rico Taxes, Other Revenues and Expenditures* in the Commonwealth Report (*Appendix I*).

The tables which follow set forth the actual monthly cash flow for the Commonwealth General Fund for fiscal 2004 and the estimated monthly cash flow for fiscal 2005. The monthly cash flow for fiscal 2004 is preliminary and does not take into account any audit adjustments.

The monthly cash flow estimates for fiscal 2005 are based upon the General Fund budget for fiscal 2005 and upon historical experience as adjusted to reflect economic conditions, statutory and administrative changes and anticipated payment dates for grants and subsidies, personal and other services, materials and supplies, equipment, capital outlays, debt service and transfers. These estimates are based on present circumstances and currently available information and are believed to be reasonable. Such estimates may be affected by numerous factors, including the continuing validity of the assumptions underlying the estimates, and there can be no assurance that such estimates will be achieved.

(P) As per Proposed Budget

(1) Consists of net revenue from General Fund's non budgetary funds plus a reserve for future tax refunds reduced by estimated tax refunds.

(2) Consists of amounts to pay principal of and interest on general obligation bonds and notes of the Commonwealth. Does not include amounts directly to the Redemption Fund from non-General Fund revenues.

(3) Consists of proceeds of borrowing from the Government Development Bank and proceeds from Commonwealth's 2005 Tax and Revenue Anticipation Notes.

(4) Consists of amounts of repayments of borrowing from the Government Development Bank and repayments of Commonwealth's 2005 Tax and Revenue Anticipation Notes.

## **Inter-Fund Borrowings**

The Commonwealth historically has used inter-fund borrowings to meet temporary imbalances of receipts and disbursements in the General Fund. Act No. 147 of the Legislature of Puerto Rico, approved June 18, 1980, provides that in any fiscal year where revenues of the General Fund are not sufficient to meet approved appropriations for such year, the Governor may authorize the Secretary of the Treasury to borrow funds from Government Development Bank and, if necessary, from any funds of the Commonwealth under his custody, on such terms and conditions as the Secretary of the Treasury deems advisable. Funds available for this purpose do not include public pension funds and funds of public employees' associations. Moneys so borrowed must be repaid as soon as there is sufficient money in the General Fund to do so. Moneys borrowed and repaid by the General Fund are accounted for as "Operating Transfers In" and "Operating Transfers Out," respectively, on the financial statements of the Commonwealth and included in certain revenue and expenditure line items in the table entitled "General Fund Revenues, Expenditures, and Changes in Cash Balance" in "Summary and Management's Discussion of General Fund Results" under *Puerto Rico Taxes, Other Revenues and Expenditures* in the Commonwealth Report (*Appendix I*).

As of June 30, 2004, funds aggregating approximately \$345.0 million under the custody of the Secretary of the Treasury were available for inter-fund borrowings, if necessary. In addition, the Commonwealth has available an \$800 million revolving line of credit with Government Development Bank, which may be used to pay the Notes, if necessary. Although this line of credit may be drawn upon by the Secretary of the Treasury for purposes other than payment of the Notes, the line of credit has in recent years been available in its entirety by April, the month when the first deposit to the Note Fund is scheduled to be made.

## **TAX MATTERS**

### **Federal Income Taxes**

The Internal Revenue Code of 1986, as amended (the "Code"), imposes certain requirements that must be met subsequent to the issuance and delivery of the Notes for interest thereon to be and remain excluded from gross income for Federal income tax purposes. Noncompliance with such requirements could cause the interest on the Notes to be included in gross income for Federal income tax purposes retroactive to the date of issue of the Notes. The Commonwealth has covenanted to comply with the applicable requirements of the Code in order to maintain the exclusion of the interest on the Notes from gross income for Federal income tax purposes pursuant to Section 103 of the Code. In addition, the Commonwealth has made certain representations and certifications in the Tax Certificate as to Arbitrage and the Provisions of Section 141-150 of the Internal Revenue Code of 1986.

In the opinion of Nixon Peabody LLP, Bond Counsel, under existing law and assuming compliance with the aforementioned covenant, and the accuracy of certain representations and certifications made by the Commonwealth described above, interest on the Notes is excluded from gross income for Federal income tax purposes under Section 103 of the Code. Bond Counsel is also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the Notes is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations.

Bond Counsel is also of the opinion that the Notes and the interest thereon are exempt from state, Commonwealth and local income taxation.

### **Original Issue Premium**

The Notes are being offered at prices in excess of their principal amounts. An initial purchaser with an initial adjusted basis in a Note in excess of its principal amount will have amortizable bond premium which is not deductible from gross income for Federal income tax purposes. The amount of amortizable bond premium for a taxable year is determined actuarially on a constant interest rate basis over the term of each Note based on the purchaser's yield to maturity. For purposes of determining gain or loss on the sale or other disposition of a Note, an initial purchaser who acquires such obligation with an amortizable bond premium is required to decrease such purchaser's adjusted basis in such Note annually by the amount of amortizable bond premium for the taxable year. The amortization of bond premium may be taken into account as a reduction in the amount of tax-exempt income for purposes of determining various other

tax consequences of owning such Notes. Owners of the Notes are advised that they should consult with their own advisors with respect to the state, Commonwealth and local tax consequences of owning such Notes.

### **Certain Federal Tax Information**

**General.** The following is a discussion of certain additional tax matters under existing statutes. It does not purport to deal with all aspects of Federal taxation that may be relevant to particular investors. Prospective investors, particularly those who may be subject to special rules, are advised to consult their own tax advisors regarding the Federal tax consequences of owning and disposing of the Notes, as well as any tax consequences arising under the laws of any state or other taxing jurisdiction.

**Social Security and Railroad Retirement Payments.** The Code provides that interest on tax-exempt obligations is included in the calculation of modified adjusted gross income in determining whether a portion of Social Security or railroad retirement benefits received are to be included in taxable income.

**Branch Profits Tax.** The Code provides that interest on tax-exempt obligations is included in effectively connected earnings and profits for purposes of computing the branch profits tax on certain foreign corporations doing business in the United States.

**Borrowed Funds.** The Code provides that interest paid (or deemed paid) on borrowed funds used during a tax year to purchase or carry tax-exempt obligations is not deductible. In addition, under rules used by the Internal Revenue Service for determining when borrowed funds are considered used for the purpose of purchasing or carrying particular assets, the purchase of obligations may be considered to have been made with borrowed funds even though the borrowed funds are not directly traceable to the purchase of such obligations.

**Property and Casualty Insurance Companies.** The Code contains provisions relating to property and casualty insurance companies where under the amount of certain loss deductions otherwise allowed is reduced (in certain cases below zero) by a specified percentage of, among other things, interest on tax-exempt obligations acquired after August 7, 1986.

**Financial Institutions.** The Code provides that commercial banks, thrift institutions and other financial institutions may not deduct the portion of their interest expense allocable to tax-exempt obligations acquired after August 7, 1986, other than certain “qualified” obligations. The Notes are not “qualified” obligations for this purpose.

**S Corporations.** The Code imposes a tax on excess net passive income of certain S corporations that have subchapter C earnings and profits. Interest on tax-exempt obligations must be included in passive investment income for purposes of this tax.

**Earned Income Credit.** For any taxable year beginning after December 31, 1995, the Code denies the earned income credit to persons otherwise eligible for it if the aggregate amount of disqualified income of the taxpayer for the taxable year exceeds \$2,200, subject to adjustment for inflation for taxable years beginning after December 31, 1996. Interest on the Notes will constitute disqualified income for this purpose.

**Changes in Federal Tax Law and Post Issuance Events.** From time to time proposals are introduced in Congress that, if enacted into law, could have an adverse impact on the potential benefits of the exclusion from gross income for Federal income tax purposes of the interest on the Notes, and thus on the economic value of the Notes. This could result from reductions in Federal income tax rates, changes in the structure of the Federal income tax rates, changes in the structure of the Federal income tax or its replacement with another type of tax, repeal of the exclusion of the interest on the Notes from gross income for such purposes, or otherwise. It is not possible to predict whether any legislation having an adverse impact on the tax treatment of holders of the Notes may be proposed or enacted.

Bond Counsel has not undertaken to advise in the future whether any events after the date of issuance and delivery of the Notes may affect the tax status of interest on the Notes. Bond Counsel expresses no opinion as to any Federal, state, Commonwealth or local tax law consequences with respect to the Notes, or the interest thereon, if any action is taken with respect to the Notes or the proceeds thereof upon the advice or approval of other counsel.

## **LEGAL MATTERS**

The proposed form of opinion of Nixon Peabody LLP, New York, New York, Bond Counsel, is set forth in *Appendix II* to this Official Statement. Certain legal matters will be passed upon for the Underwriters by McConnell Valdés, San Juan, Puerto Rico.

## **LEGAL INVESTMENT**

The Notes will be eligible for deposit by banks in Puerto Rico to secure public funds and will be approved investments for insurance companies to qualify them to do business in Puerto Rico, as required by law.

## **UNDERWRITING**

The Underwriters have jointly and severally agreed, subject to certain conditions, to purchase the Notes from the Commonwealth at an aggregate discount of \$977,094.22 from the initial offering price of the Notes. The obligations of the Underwriters are subject to certain conditions precedent, and the Underwriters will be obligated to purchase all the Notes, if any Notes are purchased. The Underwriters may offer to sell the Notes to certain dealers (including dealers depositing the Notes into unit investment trusts, certain of which may be sponsored or managed by the Underwriters) and others at price lower than the initial public offering prices, and such offering price may be changed, from time to time, by the Underwriters.

Merrill Lynch Pierce, Fenner & Smith Incorporated (“Merrill Lynch”), a managing underwriter, has entered into a written agreement with BBVA Securities of Puerto Rico, Inc. (“BBVA Securities”) pursuant to which BBVA Securities has agreed to act as a consultant to Merrill Lynch in connection with Merrill Lynch provision of underwriting and investment banking services to the Commonwealth with respect to the Notes. Pursuant to this agreement, the existence of which has been disclosed to the Commonwealth and Government Development Bank, BBVA Securities will be entitled to receive a portion of Merrill Lynch’s actual net profits, if any, in connection with the underwriting of the Notes. Other similar agreements with respect to the sharing of underwriting net profits have been entered into and disclosed to the Commonwealth and Government Development Bank by: J.P. Morgan Securities, Inc. and R-G Investments Corp., Goldman, Sachs & Co. and FirstBank Puerto Rico, Banc of America Securities LLC and Oriental Financial Services Corp., Lehman Brothers, Inc. and Santander Securities Corporation, Morgan Stanley & Co. Incorporated and Popular Securities, Inc., and Wachovia Bank, National Association and Doral Securities, Inc.

## **GOVERNMENT DEVELOPMENT BANK FOR PUERTO RICO**

As required by Act No. 272 of the Legislature of Puerto Rico, approved May 15, 1945, as amended, Government Development Bank has acted as financial advisor to the Commonwealth in connection with the Notes.

As financial advisor, Government Development Bank participated in the selection of the Underwriters of the Notes. The Underwriters have been selected by Government Development Bank to serve from time to time as underwriters of its obligations and the obligations of the Commonwealth, its instrumentalities and public corporations. Certain of the Underwriters or their affiliates participate in other financial transactions with Government Development Bank.

## **RATINGS**

Moody’s Investors Service Inc. and Standard & Poor’s Ratings Services, a division of The McGraw-Hill Companies, Inc., have given the Notes ratings of MIG-1 and SP-1+, respectively. The ratings reflect only the respective views of the rating agencies and an explanation of the significance of each rating may be obtained only from the respective rating agency.

Such rating agencies were provided with materials relating to the Commonwealth and the Notes and other relevant information, and no application has been made to any other rating agency for the purpose of obtaining a rating on the Notes.

There is no assurance that such ratings will remain in effect for any given period of time or that they will not be revised downward or withdrawn entirely by either or both of such rating agencies, if in the judgment of either or both, circumstances so warrant. Any such downward revision or withdrawal of such ratings, or either of them, may have an adverse effect on the market price of the Notes.

### CONTINUING DISCLOSURE

In accordance with the requirements of Rule 15c2-12, as amended (the “Rule”), promulgated by the Securities and Exchange Commission (the “SEC”), the Commonwealth has covenanted in the Note Resolution for the benefit of the Underwriters and the Beneficial Owners as defined in such resolution and generally the tax owners of the Notes:

To file, in a timely manner, with each NRMSIR or with the MSRB and with any Commonwealth and state information depository (“SID”), notice of the occurrence of any of the following events with respect to the Notes, if material:

- a. principal and interest payment delinquencies;
- b. non-payment related defaults;
- c. unscheduled draws on debt service reserves reflecting financial difficulties;
- d. unscheduled draws on credit enhancements reflecting financial difficulties;
- e. substitution of credit or liquidity providers, or their failure to perform;
- f. adverse opinions or events affecting the tax-exempt status of the Notes;
- g. modifications to rights of the holders (including Beneficial Owners) of the Notes;
- h. note calls;
- i. defeasances;
- j. release, substitution, or sale of property securing repayment of the Notes; and
- k. rating changes.

Events (c), (d) and (e) are included pursuant to a letter from the SEC staff to the National Association of Bond Lawyers, dated September 19, 1995. Events (c), (d) and (e) may not be applicable, since the terms of the Notes do not provide for “debt service reserves,” “credit enhancements” or “credit or liquidity providers” nor for redemption. Events (h) and (i) may not be applicable since the terms of the Notes and the Note Resolution do not contain any “call” or “defeasance” provisions. See “*The Notes.*” In addition, with respect to the following events:

Events (d) and (e). The Commonwealth does not undertake to provide any notice with respect to credit enhancement added after the primary offering of the Notes, unless the Commonwealth applies for or participates in obtaining the enhancement.

Event (f). For information on the tax status of the Notes, see “*Tax Matters.*”

The Commonwealth may from time to time choose to provide notice of the occurrence of certain other events in addition to those listed above if, in the judgment of the Commonwealth, such other events are material with respect to the Notes, but the Commonwealth does not undertake to provide any such notice of the occurrence of any material event except those events listed above.

The Commonwealth has made similar continuing disclosure covenants in connection with prior bond issuances, and has complied with all such covenants, except as hereinafter noted. The Commonwealth’s audited financial statements for the fiscal year ended June 30, 2002 were filed after the Commonwealth’s filing deadline of May 1, 2003, because of delays in finalizing such financial statements resulting from the implementation of Governmental Accounting Standards Board Statement No. 34 (“GASB 34”). The Commonwealth’s audited financial statements for the fiscal year ended June 30, 2003 were also filed after the Commonwealth’s filing deadline of April 30, 2004, because of delays in finalizing the financial statements of certain of the Commonwealth’s reporting units due to the implementation of GASB 34.

As of the date of this Official Statement, there is no Commonwealth SID, and the name and address of each NRMSIR is: Bloomberg Municipal Repository, 100 Business Park Drive, Skillman, New Jersey 08558; Standard & Poor's J.J. Kenny Repository, 55 Water Street, 45<sup>th</sup> Floor, New York, New York 10041; FT Interactive Data, Attn:

NRMSIR, 100 William Street, New York, New York 10038; and DPC Data Inc., One Executive Drive, Fort Lee, New Jersey 07024.

The Commonwealth acknowledges that its undertaking described above is intended to be for the benefit of the Beneficial Owners of the Notes, and shall be enforceable by any such Beneficial Owner, provided that the right to enforce the provisions of its undertaking shall be limited to a right to obtain specific enforcement of the Commonwealth's obligations hereunder.

No Beneficial Owner may institute any suit, action or proceeding at law or in equity ("Proceeding") for the enforcement of the foregoing covenant (the "Covenant") or for any remedy for breach thereof, unless such Beneficial Owner shall have filed with the Commonwealth written notice of any request to cure such breach, and the Commonwealth shall have refused to comply within a reasonable time. All Proceedings shall be instituted only in a Commonwealth court located in the Municipality of San Juan, Puerto Rico, for the equal benefit of all Beneficial Owners of the outstanding Notes benefitted by the Covenant, and no remedy shall be sought or granted other than specific performance of the Covenant. Moreover, Proceedings filed by Beneficial Owners against the Commonwealth may be subject to the sovereign immunity provisions of Section 2 of Act No. 104, approved June 19, 1955, as amended (32 L.P.R.A. § 3077 and § 3077a), which governs the scope of legal actions against the Commonwealth, substantially limits the amount of monetary damages that may be awarded against the Commonwealth and provides certain notice provisions, the failure to comply with which may further limit any recovery.

The Covenant may only be amended if:

(1) the amendment is made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the Commonwealth, or type of business conducted; the Covenant, as amended, would have complied with the requirements of the Rule at the time of award of the Notes, after taking into account any amendments or change in circumstances; and the amendment does not materially impair the interest of Beneficial Owners, as determined by parties unaffiliated with the Commonwealth; or

(2) all or any part of the Rule, as interpreted by the staff of the SEC at the date of the adoption of such Rule, ceases to be in effect for any reason, and the Commonwealth elects that the Covenant shall be deemed amended accordingly.

Any assertion of beneficial ownership must be filed, with full documentary support, as part of the written request described above.

The Covenant has been made in order to assist the Underwriters in complying with the Rule.

## MISCELLANEOUS

The foregoing summaries of or references to the various acts, the Notes, the Note Resolution and the summaries of or references to the various acts contained in the Commonwealth Report, are made subject to all the detailed provisions thereof to which reference is hereby made for further information and do not purport to be complete statements of any or all of such provisions.

Appended to and constituting a part of this Official Statement is the Commonwealth Report (*Appendix I*) and the proposed form of opinion of Bond Counsel (*Appendix II*).

The information included in this Official Statement and incorporated herein by reference, except for information pertaining to DTC and the information appearing in *Underwriting*, was supplied by certain officials of the Commonwealth or certain of its agencies or instrumentalities, in their respective official capacities, or was obtained from publications of the Commonwealth or certain of its agencies or instrumentalities, and is included or incorporated by reference in this Official Statement on the authority of such officials or the authority of such publications as public official documents. The information pertaining to DTC was supplied by DTC.

This Official Statement will be filed with each NRMSIR and with the MSRB.

# COMMONWEALTH OF PUERTO RICO

## Financial Information and Operating Data Report August 1, 2004

### INTRODUCTION

#### Geographic Location and Demography

Puerto Rico, the fourth largest of the Caribbean islands, is located approximately 1,600 miles southeast of New York City. It is approximately 100 miles long and 35 miles wide.

According to the United States Census Bureau, the population of Puerto Rico was 3,808,610 in 2000, compared to 3,522,000 in 1990. As of 2000, the population of San Juan, the island's capital and largest city, was 434,375.

#### Relationship with the United States

Puerto Rico was discovered by Columbus in 1493, and shortly thereafter the island was conquered and settled by the Spaniards. It remained a Spanish possession for four centuries.

Puerto Rico came under United States sovereignty pursuant to the Treaty of Paris, signed on December 10, 1898, which ended the Spanish-American War. Puerto Ricans have been citizens of the United States since 1917. In 1950, after a long evolution toward greater self-government for Puerto Rico, the Congress of the United States enacted Public Law 600, which is "in the nature of a compact" and which became effective upon its acceptance by the electorate of Puerto Rico. It provides that those sections of existing law which defined the political, economic, and fiscal relationship between Puerto Rico and the United States would remain in full force. It also authorized the people of Puerto Rico to draft and adopt their own Constitution. The Constitution was drafted by a popularly elected constitutional convention, overwhelmingly approved in a special referendum by the people of Puerto Rico and approved by the United States Congress and the President of the United States, becoming effective upon proclamation of the Governor of Puerto Rico on July 25, 1952. Puerto Rico's relationship with the United States is referred to herein as commonwealth status.

The United States and the Commonwealth of Puerto Rico (the "Commonwealth") share a common defense, market, and currency. The Commonwealth exercises virtually the same control over its internal affairs as do the fifty states. It differs from the states, however, in its relationship with the federal government. The people of Puerto Rico are citizens of the United States but do not vote in national elections. They are represented in Congress by a Resident Commissioner who has a voice in the House of Representatives but no vote. Most federal taxes, except those such as Social Security taxes which are imposed by mutual consent, are not levied in Puerto Rico. No federal income tax is collected from Puerto Rico residents on income earned in Puerto Rico, except for certain federal employees who are subject to taxes on their salaries.

The official languages of Puerto Rico are Spanish and English.

#### Governmental Structure

The Constitution of the Commonwealth provides for the separation of powers of the executive, legislative, and judicial branches of government. The Governor is elected every four years. The Legislature consists of a Senate and a House of Representatives, the members of which are elected for four-year terms. The highest court within the local jurisdiction is the Supreme Court of Puerto Rico. Puerto Rico constitutes a District in the Federal Judiciary and has its own United States District Court.

Decisions of this court may be appealed to the United States Court of Appeals for the First Circuit and from there to the Supreme Court of the United States.

Governmental responsibilities assumed by the central government of the Commonwealth are similar in nature to those of the various state governments. In addition, the central government assumes responsibility for local police and fire protection, education, public health and welfare programs, and economic development.

Sila M. Calderón was sworn in as Governor of Puerto Rico on January 2, 2001. She obtained a Bachelor's degree in Political Science from Manhattanville College in New York and undertook graduate studies at the School of Public Administration of the University of Puerto Rico. Since 1973, she has worked in the public sector as Executive Assistant to the Secretary of Labor, Special Assistant to the Governor of Puerto Rico, Chief of Staff of the Governor of Puerto Rico and Secretary of State. In the private sector, she was an executive in charge of Business Development for Citibank, N.A., President of Commonwealth Investment Company Inc., and a member of the Board of Directors of BanPonce, Banco Popular de Puerto Rico and Pueblo International, Inc. From 1997 until taking office as Governor, she served as elected Mayor of the municipality of San Juan.

Juan A. Flores Galarza, Secretary of the Treasury, took office on January 2, 2001. He is a certified public accountant and a graduate of the University of Puerto Rico, Mayagüez Campus, where he obtained a Bachelor's degree in Business Administration. Prior to his appointment as Secretary of the Treasury, he worked in a manufacturing company and as an auditor for a large accounting firm.

Melba Acosta, Director of the Office of Management and Budget, took office on January 2, 2001. She is a graduate of the University of Puerto Rico, where she obtained a Bachelor's degree in Business Administration and a Juris Doctor degree. She obtained a Master's degree in Business Administration from the Harvard Graduate School of Business. She is a certified public accountant and has six years of experience as a tax consultant and corporate attorney in the private sector. Prior to her appointment as head of the Office of Management and Budget, she served for four years in the public sector as Chief of Staff of the Municipality of San Juan.

Antonio Fariá-Soto was appointed President of Government Development Bank in November 2003. He obtained a Bachelor's degree in Business Administration from Catholic University of Puerto Rico and a Master's degree in Business Administration from InterAmerican University. At the time of his appointment, he was President of the Economic Development Bank for Puerto Rico. Prior to his appointment as President of Economic Development Bank for Puerto Rico, he served as Commissioner of Financial Institutions for the Commonwealth. Mr. Fariá has over 30 years of experience in the commercial and investment banking industry, having worked at PaineWebber, Banco Santander, Banco Central Hispano, Banco Central y Economías and Citibank, N.A.

## **Political Trends**

For many years there have been two major views in Puerto Rico with respect to the island's relationship with the United States: one favoring commonwealth status, represented by the Popular Democratic Party, and the other favoring statehood, represented by the New Progressive Party. The following table shows the percentages of the total vote received by the gubernatorial candidates of the various parties in the last five elections by voter preference with respect to commonwealth status, statehood, and independence. While the electoral choices of Puerto Rico's voters are not based solely on preferences regarding the island's relationship with the United States, candidates who support a continuing relationship between Puerto Rico and the United States have prevailed in elections for many years.

	<u>1984</u>	<u>1988</u>	<u>1992</u>	<u>1996</u>	<u>2000</u>
Popular Democratic Party	48.5%	48.7%	45.9%	44.5%	48.6%
New Progressive Party	45.5	45.8	49.9	51.1	45.7
Puerto Rico Independence Party	3.9	5.4	4.2	3.8	5.2
Others	2.1	0.1	--	0.6	0.5

With the results of the 2000 election, control of the executive and legislative branches is now under the Popular Democratic Party. The composition of the Senate and House of Representatives by political party is as follows:

	<u>Senate</u>	<u>House</u>
Popular Democratic Party	20	29
New Progressive Party	8	21
Puerto Rico Independence Party	1	1
	<u>29</u>	<u>51</u>

The next general election (gubernatorial, municipal, and legislative) in Puerto Rico will be held in November 2004. Voter participation in Puerto Rico is substantially higher than in the United States, averaging 83% since 1972.

## THE ECONOMY

### General

The Commonwealth has established policies and programs directed principally at developing the manufacturing and services sectors of the economy and expanding and modernizing the Commonwealth's infrastructure. Domestic and foreign investments have been stimulated by selective tax exemptions, development loans, and other financial and tax incentives. Infrastructure expansion and modernization have been to a large extent financed by bonds and notes issued by the Commonwealth, its public corporations, and municipalities. Economic progress has been aided by significant increases in the levels of education and occupational skills of the island's population.

Puerto Rico has enjoyed more than two decades of almost continuous economic expansion. Almost every sector of the economy has participated in this expansion, and record levels of employment have been achieved. Factors contributing to this expansion included government-sponsored economic development programs, increases in the level of federal transfer payments, a significant expansion in construction investment driven by infrastructure projects and private investment, primarily in housing, the relatively low cost of borrowing, and low oil prices in many years during this period.

Personal income, both aggregate and per capita, has increased consistently each fiscal year from 1985 to 2003. In fiscal year 2003, aggregate personal income was \$43.6 billion (\$41.7 billion in 2000 prices) and personal income per capita was \$11,279 (\$10,784 in 2000 prices).<sup>\*</sup> Personal income includes transfer payments to individuals in Puerto Rico under various social programs. Total federal payments to Puerto Rico, which include transfers to local government entities and expenditures of federal agencies in Puerto Rico, in addition to federal transfer payments to individuals, are lower on a per capita basis in Puerto Rico than in any state of the United States. Transfer payments to individuals in fiscal year 2003 were \$9.6 billion, of which \$7.4 billion, or 77%, represented entitlements to individuals who had previously performed services or made contributions under programs such as Social Security, Veterans' Benefits, Medicare and U.S. Civil Service retirement pensions.

---

<sup>\*</sup>Different price deflators are used for gross product and personal income statistics. The year 2000 is used as a basis for comparison because that is the year used by the U.S. Department of Commerce.

Total average employment (as measured by the Department of Labor and Human Resources Household Employment Survey) has also increased. For example, from fiscal year 1999 to fiscal year 2004, average employment increased from 1,146,700 to 1,234,200.

The dominant sectors of the Puerto Rico economy are manufacturing and services. The manufacturing sector has undergone fundamental changes over the years as a result of increased emphasis on higher wage, high technology industries, such as pharmaceuticals, biotechnology, electronics, computers, microprocessors, professional and scientific instruments, and certain high technology machinery and equipment. The services sector, including finance, insurance, real estate, wholesale and retail trade, and tourism, also plays a major role in the economy. It ranks second only to manufacturing in contribution to the gross domestic product and leads all sectors in providing employment.

The following table shows the gross product for the five fiscal years ended June 30, 2003.

**Commonwealth of Puerto Rico  
Gross Product**

	<b>Fiscal Years Ended June 30</b>				
	<b><u>1999</u></b>	<b><u>2000</u></b>	<b><u>2001</u></b>	<b><u>2002</u></b>	<b><u>2003<sup>(1)</sup></u></b>
Gross product - \$ millions <sup>(2)</sup>	\$ 38,281	\$ 41,419	\$ 44,047	\$ 45,008	\$ 47,354
Real gross product - \$ millions (2000 prices)	40,225	41,419	42,044	41,910	42,689
Annual percentage increase in real gross product (2000 prices)	4.1%	3.0%	1.5%	(0.3%)	1.9%
U.S. annual percentage increase in real gross product (2000 prices)	4.1%	4.6%	1.9%	0.7%	2.6%

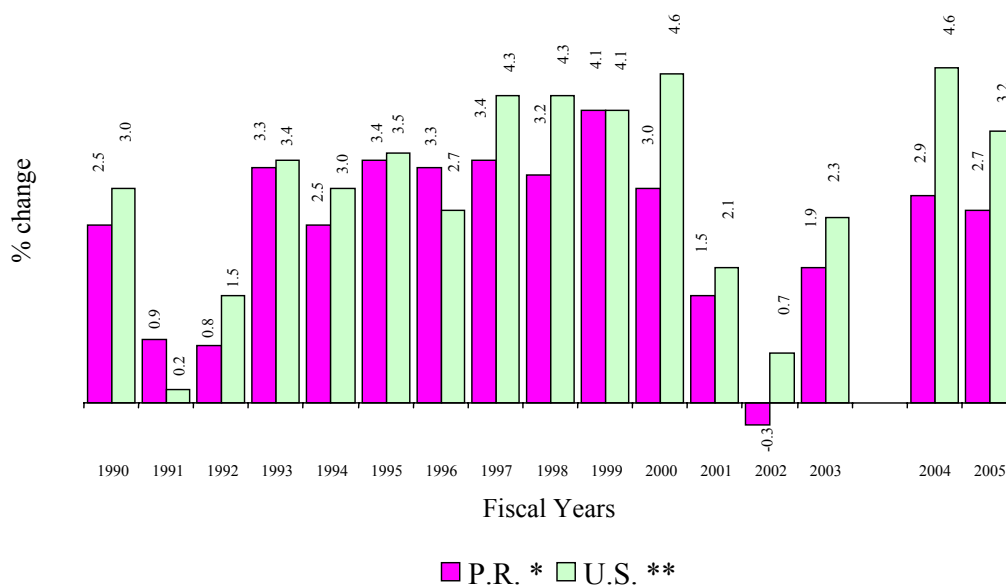

(1) Preliminary.

(2) In current dollars.

*Sources:* P.R. Planning Board and Global Insight Inc.

The economy of Puerto Rico is closely linked to the United States economy. Factors affecting the United States economy usually have a significant impact on the performance of the Puerto Rico economy. These include exports, direct investment, the amount of federal transfer payments, the level of interest rates, the level of oil prices, the rate of inflation, and tourist expenditures. Consequently, the economic slowdown in the United States in 2001 and 2002 and the subsequent recovery in 2003, which continues in 2004, have also been reflected in the Puerto Rico economy. During fiscal year 2003 (July 2002 through June 2003), approximately 86% of Puerto Rico's exports went to the United States mainland, which was also the source of approximately 49% of Puerto Rico's imports. In fiscal year 2003, Puerto Rico experienced a \$21.4 billion positive merchandise trade balance. The graph on the following page compares the growth rate of real gross product (or GNP) for the Puerto Rico and United States economies since fiscal 1990, and the forecast of the growth rate for fiscal years 2004 and 2005.

## Real GNP Growth Rate

\* P.R. Planning Board

\*\* Global Insight 9/04.

Since the 1950s, the Puerto Rico Planning Board (the “Planning Board”) has prepared a complete set of macroeconomic measures like those prepared for the United States by the Bureau of Economic Analysis (“BEA”) of the Department of Commerce. In contrast with the BEA, which computes the economic accounts on a quarterly basis, the Planning Board computes the economic accounts on an annual basis. Like the BEA, the Planning Board revises the macroeconomic numbers on a regular basis. The Planning Board has always classified the latest annual numbers as preliminary until they are revised and made final in conjunction with the release of new data each year. At present, all macroeconomic accounts for fiscal year 2003 are preliminary until the revised figures are released.

### *Fiscal Year 2003*

The Planning Board’s preliminary reports of the performance of the Puerto Rico economy during fiscal year 2003 indicate that the economy registered an increase of 1.9% in real gross product. Gross product was \$47.4 billion in fiscal year 2003 (\$42.7 billion in 2000 prices) compared to \$45.0 billion in fiscal year 2002 (\$41.9 billion in 2000 prices). This represents an increase in nominal gross product of 5.2%. Aggregate personal income increased from \$42.2 billion in fiscal year 2002 (\$40.8 billion in 2000 prices) to \$43.6 billion in fiscal year 2003 (\$41.7 billion in 2000 prices), and personal income per capita increased from \$10,969 in fiscal year 2002 (\$10,603 in 2000 prices) to \$11,279 in fiscal year 2003 (\$10,784 in 2000 prices). According to the Department of Labor and Human Resources Household Employment Survey (the “Household Survey”), total monthly employment averaged 1,210,800 in fiscal year 2003 compared to 1,169,600 in fiscal year 2002, an increase of 3.5%. Notwithstanding this increase in average monthly employment, the unemployment rate increased from 12.0% during fiscal year 2002 to 12.1% during fiscal year 2003 due to a higher labor participation rate and a significant increase in the civilian population aged 16 years and over.

### *Fiscal Year 2004*

The Planning Board’s current real gross product forecast for fiscal year 2004, released in February 2004, projected an increase of 2.9%, slightly higher than the original forecast of 2.5%.

According to the Household Survey, total monthly seasonally adjusted employment for fiscal year 2004 averaged 1,251,900, an increase of 2.1% compared to 1,226,000 for fiscal year 2003. The seasonally adjusted unemployment rate for fiscal year 2004 was 11.1%, a decrease from 11.9% for fiscal year 2003. As in the past, the economy of Puerto Rico followed the performance of the United States economy.

#### *Fiscal Year 2005*

The Planning Board's current real gross product forecast for fiscal year 2005, released in February 2004, projected an increase of 2.7%. The major short term risks that could have an adverse effect on the economy of Puerto Rico include the continuation of the high price of oil resulting from the conflict in Iraq, the possibility of further terrorist attacks to the United States, the upward turn of interest rates, and the devaluation of the American dollar, which affects the value of imports to Puerto Rico. Although the level of interest rates began to increase slightly at the end of fiscal year 2004, interest rates still remain at historically low levels, a factor which could stimulate economic activity in Puerto Rico for the short and medium-term.

### **Economic Development Program for the Private Sector**

During the past three years, the Commonwealth's economic development program for the private sector has focused on initiatives which it believes will lead to sustainable economic development. The principal initiatives have been: (i) the enactment of laws in Puerto Rico providing tax benefits that will promote foreign and local investment and increased economic activity; (ii) the acceleration and simplification of the local permitting process; (iii) the reduction of the costs of doing business in Puerto Rico; and (iv) the promotion of new federal income tax benefits that enhance the attractiveness of establishing operations in Puerto Rico. Recognizing a shift in its post-industrial economy, the Commonwealth recently formulated a strategic plan to enhance its competitiveness in knowledge-based economic sectors, such as research and development of science and technology products. Two major components of this strategic plan are: (i) to build on the strong presence in Puerto Rico of multinational companies in the science and technology sectors and Puerto Rico's skilled workforce to promote the expansion of research and development facilities by companies currently operating in Puerto Rico and to attract new leaders in such sectors, and (ii) to provide incentives for companies and entrepreneurs to engage in the process of innovation and commercialization of new products and establish research and development facilities in Puerto Rico. The latter initiative includes the creation of a government-sponsored trust to provide grants and financing to companies and entrepreneurs that engage in these activities.

#### *Puerto Rico Tax Incentives*

One of the benefits enjoyed by the Commonwealth is that corporations operating in Puerto Rico (other than corporations organized in the United States) and individuals residing in Puerto Rico generally are not subject to federal income taxes. This enables the Commonwealth to utilize local tax legislation as a tool for stimulating economic development in Puerto Rico. See "Tax Incentives" below.

In this regard, the Commonwealth has enacted legislation extending certain benefits of its most recent tax incentive law, Act No. 135 of December 2, 1997, as amended (the "1998 Tax Incentives Act"), to all eligible businesses operating under previous tax incentives laws. These benefits include a 200% deduction for research and development expenses and worker training expenses, the ability to deduct as a current expense investments in machinery and equipment, and the ability to claim a tax credit equal to 25% of the purchase price of a product manufactured in the Commonwealth (in excess of a base amount) or 35% of the purchase price of a locally manufactured recycled product.

The 1998 Tax Incentives Act was also amended to allow a credit against the Puerto Rico tax liability of investors that acquire the majority of the stock, partnership interests or operational assets of an exempted business that is in the process of closing operations in Puerto Rico. A credit against the Puerto

Rico tax liability is also provided to investors that contribute cash to such exempted business for the construction or improvement of its physical facilities and the purchase of machinery and equipment. The amount of the credit is equal to 50% of the cash invested for such purposes, not to exceed \$5,000,000 per exempted business. The maximum amounts of such credits that may be authorized by the Secretary of the Treasury for any fiscal year is \$15,000,000.

The Commonwealth has also enacted legislation which (i) reduces the capital gains tax from 20% to 10% in the case of individuals and estates and trusts, and from 25% to 12.5% in the case of corporations and partnerships organized under the laws of the Commonwealth or engaged in trade or business in the Commonwealth, for gains from the sale of eligible Commonwealth investments; and (ii) allows income tax credits for extraordinary investment in housing infrastructure. In addition, legislation was recently enacted that reduces the tax payable on interest on certain qualifying debt obligations issued by Puerto Rico corporations and certain qualifying foreign corporations and paid to resident individuals, trusts and estates to 10% under certain circumstances.

In addition, legislation has been enacted: (i) amending the 1998 Tax Incentives Act to provide special income tax rates ranging from 0% to 2% to companies that establish operations in Puerto Rico in “core pioneer industries” which utilize innovative technology not previously used in Puerto Rico; (ii) granting tax credits with respect to eligible investments made in the construction or substantial rehabilitation of housing units to be rented to low income families; (iii) reducing to 7% the capital gains rate applicable to gains realized on the sale of the stock of Puerto Rico corporations sold in an initial public offering made prior to December 31, 2007, or acquired in public offerings made prior to December 31, 2007; (iv) granting income tax exemption to the fees and interest income received by financial institutions in connection with loans or guarantees of loans made to finance tourism development projects; (v) granting an exemption to qualified associations administering timesharing rights or vacation clubs and to owners’ associations of areas designated as tourism enhancement districts; (vi) granting income tax exemption to financial institutions for charges collected on obligations issued for the financing of tourism projects; (vii) granting tax exemption for investments in infrastructure made by housing developers; (viii) granting tax credits to Puerto Rico businesses that acquire products manufactured in Puerto Rico for exportation; and (ix) rehabilitating urban centers through the development of housing projects, community areas, commercial areas, parks and recreational spaces, construction and renovation of structures and the development of undeveloped or under-developed sites.

#### *Acceleration and Simplification of Local Permitting Process*

Another government initiative to promote sustainable economic activity involves the simplification of the permitting process. As part of this initiative, the Commonwealth established a multi-agency center that handles, in a coordinated manner, the permitting process. Furthermore, the government developed a procedure that will allow agencies to conduct simultaneous public hearings in those instances when two or more agencies require them.

#### *Reduction of the Costs of Doing Business*

The Commonwealth believes that, to make Puerto Rico more competitive and foster investment, it needs to reduce the cost of doing business in Puerto Rico. One of the costs of doing business in Puerto Rico that is high, particularly for the manufacturing industry, relative to competing jurisdictions, is the cost of electricity. Puerto Rico is heavily dependent on oil imports for the production of electricity. As a result of the construction of two cogeneration plants, however, one of which is fueled by liquefied natural gas and the other by coal, Puerto Rico’s dependence on oil imports for the production of electricity has been reduced from 99% to 74%. The Electric Power Authority now estimates that these plants could provide up to 33% of its electric energy requirements.

## *Federal Tax Incentives*

In order to enhance the attractiveness for United States companies of establishing operations in Puerto Rico, the Commonwealth has been seeking to provide for a new and permanent tax regime applicable to U.S.-based businesses that have operations in the Commonwealth or other U.S. possessions. During the past three years, the Commonwealth has been pursuing an amendment to Section 956 of the United States Internal Revenue Code of 1986, as amended (the “Code”), that would establish a regime based on the tax rules generally applied to U.S. companies with international operations, but with certain modifications intended to promote employment both in the Commonwealth and the United States. The U.S. Congress, however, has not acted upon the proposed amendment to Section 956 of the Code. Also, due to the phase-out of Sections 30A and 936 of the Code (see “Tax Incentives – Incentives Under the Code” below), the U.S. Senate designated a special commission through the General Accounting Office to study the economic impact of said phase-out and to present recommendations on alternative tax incentives for U.S.-based companies operating in Puerto Rico. In the meantime, as discussed below, most U.S.-based companies operating under Sections 30A and 936 of the Code have converted from United States corporations to Puerto Rico or foreign corporations, thus lessening the impact of the phase-out of those sections.

### **Employment and Unemployment**

The number of persons employed in Puerto Rico during fiscal year 2004 averaged 1,234,200, a 1.9% increase from 1,210,800 in fiscal year 2003. Unemployment, although at relatively low historical levels, remains above the United States average. The average unemployment rate decreased from 12.5% in fiscal year 1999 to 11.4% in fiscal year 2004. For the months of May, June and July 2004, the unemployment rate (seasonally adjusted) was 9.8%, 9.3% and 9.7%, respectively.

The following table presents annual statistics of employment and unemployment for fiscal year 1999 through fiscal year 2003 and monthly statistics for fiscal year 2004 and July 2004. These employment figures are based on the Household Survey, which includes self-employed individuals, instead of the non-farm payroll employment survey (the “Payroll Survey”), which does not. The number of self-employed individuals represents around 17% of civilian employment in Puerto Rico, more than double the level in the United States.

### **Economic Performance by Sector**

During the period between fiscal year 1999 and 2003, the manufacturing and services sectors generated the largest portion of gross domestic product. The three sectors of the economy that provide the most employment are manufacturing, services and government.

The following table presents annual statistics of gross domestic product by sector and gross product for the five fiscal years ended June 30, 2003.

**Commonwealth of Puerto Rico**  
**Gross Domestic Product by Sector and Gross Product**  
**(in millions at current prices)**

(1) The figures presented in this table are based on the Payroll Survey prepared by the Bureau of Labor Statistics of the Department of Labor and Human Resources. There are numerous conceptual and methodological differences between the Household Survey and the Payroll Survey. The Payroll Survey reflects information collected from payroll records of a sample of business establishments, while the Household Survey is based on responses to a series of questions by persons in a sample of households. The Payroll Survey excludes the self-employed and agricultural employment. Totals may not add due to rounding.

(2) Preliminary.

*Source:* Department of Labor and Human Resources, Current Employment Statistics Survey (Establishment Survey – NAICS Codes)

*Manufacturing*

Manufacturing is the largest sector of the Puerto Rico economy in terms of gross domestic product. The Planning Board estimates that in fiscal year 2003 manufacturing generated \$31.3 billion, or 42.1%, of gross domestic product. During fiscal year 2003, payroll employment for the manufacturing sector was 116,853, a decrease of 4.2% compared with fiscal year 2002, with most of the job losses occurring in labor-intensive industries. Most of the island's manufacturing output is shipped to the United States mainland, which is also the principal source of semi-finished manufactured articles on which further manufacturing operations are performed in Puerto Rico. The United States minimum wage laws are applicable in Puerto

Rico. As of July 2004, the average hourly manufacturing wage rate in Puerto Rico was 66.9% of the average mainland United States rate.

Manufacturing in Puerto Rico is now more diversified than during the earlier phases of its industrial development and includes several industries less prone to business cycles. In the last three decades, industrial development has tended to be more capital intensive and more dependent on skilled labor. This gradual shift in emphasis is best exemplified by the large investment over the last decade in the pharmaceutical, scientific instruments, computers and electrical products industries in Puerto Rico. One of the factors assisting the development of the manufacturing sector has been the tax incentives offered by the federal and Puerto Rico governments. Federal legislation enacted in 1996, however, which amended Section 936 of the Internal Revenue Code of 1986, as amended, phases out the federal tax incentives during a ten-year period. See "Tax Incentives - Incentives Under the Code" under *The Economy*.

The following table sets forth gross domestic product by manufacturing sector for the five fiscal years ended June 30, 2003.

(2) Preliminary.

*Sources:* Department of Labor and Human Resources, Current Employment Statistic Survey (Establishment Survey – NAICS Codes)

Total employment in the manufacturing sector decreased by 27,047 from fiscal year 2000 to fiscal year 2004. This reduction in manufacturing employment occurred during a period of significant expansion in real manufacturing output, as reflected in the growth of exports. This trend suggests a significant increase in manufacturing investment and productivity. Most of the decrease in employment has been concentrated in labor intensive industries, particularly apparel, textiles, tuna canning, and leather products.

employment is concentrated in the service and construction sectors. For example, in fiscal year 2003, the number of self-employed individuals was 180,464, out of which 46.0% were in the service sector and 10.5% were in the construction sector. The development of the services sector has been positively affected by demand generated by other sectors of the economy, such as manufacturing, construction and agriculture. The services sector in Puerto Rico has a diversified base.

The high degree of knowledge, skills, and expertise in professional and technical services available in Puerto Rico places the island in a favorable competitive position with respect to Latin America and other trading countries throughout the world.

The services sector ranks second to manufacturing in its contribution to gross domestic product, and it is the sector with the greatest employment. In fiscal year 2003, services generated \$28.7 billion of gross domestic product, or 38.7%, of the total. Services employment grew from 485,241 in fiscal year 1999 to 506,941 in fiscal year 2003 (representing 51.1% of total employment). This represents a cumulative increase of 4.5%. Wholesale and retail trade, finance, insurance and real estate experienced significant growth in fiscal years 1999 to 2003, as measured by gross domestic product. From fiscal year 1999 to 2003, gross domestic product increased in wholesale and retail trade from \$8.1 billion to \$8.6 billion and in finance, insurance, and real estate from \$8.2 billion to \$12.7 billion. There are sixteen commercial banks and trust companies currently operating in Puerto Rico. Total assets of these institutions as of June 30, 2004 were \$85.4 billion. As of December 31, 2003, there were thirty-five international banking entities operating in Puerto Rico licensed to conduct offshore banking transactions with total assets of \$56.5 billion.

The following tables set forth gross domestic product for fiscal years 1999 to 2003 and employment for the services sector for fiscal years 2000 to 2004.

**Commonwealth of Puerto Rico**  
**Gross Domestic Product by Service Sector**

*Hotels and Related Services - Tourism*

During fiscal year 2003, the number of persons registered in tourist hotels was 1,733,300, an increase of 8.6% over the number of persons registered during fiscal year 2002, when tourism in Puerto Rico was adversely affected in the immediate aftermath of the terrorist attacks of September 11, 2001. The average occupancy rate in tourist hotels during fiscal year 2003 was 68.0% compared to 64.4% in fiscal year 2002. The average number of rooms rented in tourist hotels increased 9.1% during fiscal year 2003 compared with fiscal year 2002. The average number of rooms available in tourist hotels increased 3.5% during fiscal year 2003 compared with fiscal year 2002, representing openings of new hotels and hotel expansions. During fiscal year 2003, hotels comprising 870 new hotel rooms opened and, as of January 2004, several hotels, representing more than 4,000 additional rooms, are under various stages of development or construction.

In fiscal year 2004, the number of persons registered in tourist hotels was 1,791,432, an increase of 3.4% over the number of persons registered during fiscal year 2003. The number of non-resident tourists registered in tourist hotels during fiscal year 2004 increased 6.0% in comparison with the same period of fiscal year 2003. The average occupancy rate in tourist hotels during fiscal year 2004 was 72.4% compared to 68.0% in fiscal year 2003. The average number of rooms rented in tourist hotels increased 4.9% during fiscal year 2004 compared with fiscal year 2003.

San Juan is the largest homeport for cruise ships in the Caribbean and one of the largest homeports for cruise ships in the world.

*Government*

The government sector of Puerto Rico plays an important role in the economy. In fiscal year 2003, government accounted for \$7.1 billion of Puerto Rico's gross domestic product, or 9.6%, of the total. The government is also a significant employer, providing jobs for 303,914 workers, or 30.3%, of total non-farm payroll employment in fiscal year 2004. The government's share of non-farm payroll employment (including the central government, the public corporations and the municipalities, but excluding the federal government), measured according to the payroll survey, had decreased from 34.9% in fiscal year 1980 to 26.4% in fiscal year 2000.

On February 25, 1998, legislation was enacted permitting the unionization of employees of the central government (excluding municipal employees). Under this law, government employees are given collective bargaining rights subject to a number of limitations. Among those limitations are: employees are prohibited from striking; salary increases are contingent on the availability of budgeted revenues; employees cannot be required to become union members and pay union dues; and collective bargaining negotiations cannot occur in an election year.

*Transportation*

Thirty-four shipping lines offer regular ocean freight service to eighty United States and foreign ports. San Juan is the island's leading seaport, but there are also seaport facilities at other locations on the island including Arecibo, Culebra, Fajardo, Guayama, Guayanilla, Mayagüez, Ponce, Vieques, and Yabucoa.

Luis Muñoz Marín International Airport is currently served by twenty-five United States and international airlines. At present, there is daily direct service between San Juan and Atlanta, Boston, Chicago, Dallas, Miami, New York, Philadelphia, and numerous other destinations within the United States. There is also regularly scheduled service between Puerto Rico and other Caribbean islands and certain Latin American and European cities. A major United States airline uses San Juan as a hub for its intra-Caribbean airline service. Several smaller airports serve intra-island traffic.

The island's major cities are connected by a modern highway system, which, as of December 31, 2003, totaled approximately 4,591 miles. The highway system comprises 379 miles of primary system highways, 230 miles of primary urban system highways, 955 miles of secondary system highways and 3,027 miles of tertiary highways and roads.

The Commonwealth has conducted a request for proposal process to select a private company to develop, construct, operate and maintain a world-class container facility on the south coast of Puerto Rico, to be called the Port of the Americas. The Port of the Americas Authority, created by legislation, will select and negotiate with the developer and operator of the project. To date, approximately \$17.7 million have been invested in the development of the project. Construction is expected to begin in 2005, and partial operation of the Port of the Americas could begin as early as 2006.

### *Construction*

Although the construction industry represents a relatively small segment of the economy compared to other sectors, it has made significant contributions to the growth of economic activity. However, during the period from fiscal year 1999 through fiscal year 2003, real construction investment decreased 3.1%. This decline is relatively small when compared to the relatively high levels of construction activity.

The total value of construction permits increased 70.3% for the same five-year period. Public investment has been an important component of construction investment. During fiscal year 2003, approximately 42% of the total investment in construction was related to public projects. During fiscal year 2003, the total value of construction permits increased 22.0% compared with fiscal year 2002. Total sales of cement, including imports, increased 3.2% during fiscal year 2003 in comparison with fiscal year 2002. Average payroll employment in the construction sector during fiscal year 2003 was 68,700, a decrease of 0.7% from fiscal year 2002.

During fiscal year 2004, total sales of cement, including imports, decreased 1.9% compared with fiscal year 2003. This decrease in total sales of cement was attributable in part to heavy rains that affected the island in November 2003, causing a 31% decrease in sales as compared to November 2002. Excluding November 2003, total sales of cement for fiscal year 2004 increased 0.9%. Total imports of iron and steel products increased 36.2% during fiscal year 2003. During fiscal year 2004, the total value of construction permits increased 8.2% compared with fiscal year 2003.

The Planning Board's forecast for construction investment, both public and private, for fiscal year 2004 was \$6.7 billion, in nominal terms, an increase (in real terms) of 4.6% when compared to fiscal year 2003. For fiscal year 2004, approximately \$3.1 billion was expected to be invested in public improvements. Public investment will be primarily in housing, new schools (and school reconstruction programs), water projects, and other public infrastructure projects.

### *Agriculture*

The Department of Agriculture and related agencies have directed their efforts at increasing and improving local agricultural production, increasing efficiency and the quality of produce, and stimulating the consumption of locally produced agricultural products. During fiscal year 2003, gross income from agriculture was \$756.2 million, an increase of 1.7% compared with fiscal year 2002. Agriculture gross income consists of the total value of production in the principal agricultural sectors, which include traditional crops, livestock and poultry, grains, vegetables, fruits, and other products. During fiscal year 2003, non-traditional crops, fruits, starchy and other vegetables, and ornamental plants contributed a higher percentage of the sector's income.

The Commonwealth supports agricultural activities through incentives, subsidies, and technical and support services, in addition to income tax exemptions for qualified income derived by bona fide

farmers. Act No. 225, approved on December 1, 1995, increased the tax benefits available to bona fide farmers. The Act provides a 90% income tax exemption for income derived from agricultural operations, an investment tax credit equal to 50% of the investment in qualified agricultural projects, and a 100% exemption from excise taxes, real and personal property taxes, municipal license taxes and tariff payments. It also provides full income tax exemption for interest income from bonds, notes and other debt instruments issued by financial institutions to provide financing to agricultural businesses. Subsequent legislation imposed an aggregate annual limit of \$15 million on the investment tax credits available under Act No. 225.

Policy changes have been implemented to promote employment and income generated by the agricultural sector. The policy initiatives include a restructuring of the Department of Agriculture, an increase in government purchases of local agricultural products, new programs geared towards increasing the production and sales of agricultural products, and a new system of agricultural credits and subsidies for new projects.

### **Higher Education**

During the five decades from 1950 to 2000, Puerto Rico made significant advances in the field of education, particularly at the college and graduate school level. The transformation of Puerto Rico during the 1950s and 1960s from an agricultural economy to an industrial economy brought about an increased demand for educational services at all levels. During the 1970s and 1980s, certain higher wage, higher technology industries became more prominent in Puerto Rico. More recently, employment in the services sector has increased significantly. This has resulted in an increased demand for workers having a higher level of education and greater expertise in various technical fields. During the same time period, enrollments in institutions of higher learning rose very rapidly due to growth in the college-age population, and the increasing proportion of college attendance by such population. During the 1990s, college attendance and college attendance as a percentage of the college age population continued to increase.

The following table presents comparative trend data for Puerto Rico and the United States with respect to college age population and the percentage of such population attending institutions of higher learning.

The University of Puerto Rico, the only public university in Puerto Rico, has eleven campuses located throughout the island. The University's total enrollment for academic year 2003-2004 was 68,627 students. The Commonwealth is legally bound to appropriate annually for the University of Puerto Rico an amount equal to 9.60% of the average annual revenue from internal sources for each of the two fiscal years immediately preceding the current fiscal year.

In addition to the University of Puerto Rico, there are 43 public and private institutions of higher education located in Puerto Rico. Such institutions have a current enrollment in excess of 130,285 students and provide programs of study in liberal arts, education, business, natural sciences, technology, secretarial and computer sciences, nursing, medicine, and law. Degrees are offered by these institutions at the associate, bachelor, master, and doctoral levels.

**Tax Incentives**

One of the factors that has promoted and continues to promote the development of the manufacturing sector in Puerto Rico has been the various local and federal tax incentives available, particularly those under Puerto Rico's Industrial Incentives Program and, until recently, Sections 30A and 936 of the Code. Tax and other incentives have also been established to promote the development of the tourism industry. These incentives are summarized below.

### *Industrial Incentives Program*

Since 1948, Puerto Rico has had various industrial incentives laws designed to stimulate industrial investment in the island. Under these laws, companies engaged in manufacturing and certain other designated activities were eligible to receive full or partial exemption from income, property, and other local taxes. The most recent of these industrial incentives laws is the 1998 Tax Incentives Act, a law aimed at promoting investment in Puerto Rico.

The benefits provided by the 1998 Tax Incentives Act are available to new companies as well as companies currently conducting tax exempt operations in Puerto Rico that choose to renegotiate their existing tax exemption grant. The activities eligible for tax exemption include manufacturing, certain designated services performed for markets outside Puerto Rico, the production of energy from local renewable sources for consumption in Puerto Rico and laboratories for scientific and industrial research. For companies qualifying thereunder, the 1998 Tax Incentives Act imposes income tax rates ranging from 2% to 7% for periods ranging from 10 to 25 years. In addition, it grants 90% exemption from property taxes, 100% exemption from municipal license taxes during the first three semesters of operations and between 80% and 60% thereafter, and 100% exemption from excise taxes with respect to raw materials and certain machinery and equipment used in the exempt activities. The 1998 Tax Incentives Act also provides various special deductions designed to stimulate employment and productivity, research and development and capital investment in Puerto Rico.

Under the 1998 Tax Incentives Act, companies can repatriate or distribute their profits free of Puerto Rico dividend taxes. In addition, passive income derived from the investment of eligible funds in Puerto Rico financial institutions, obligations of the Commonwealth and other designated investments are fully exempt from income and municipal license taxes. Individual shareholders of an exempted business are allowed a credit against their Puerto Rico income taxes equal to 30% of their proportionate share of the exempted business's income tax liability. Gain from the sale or exchange of shares of an exempted business by its shareholders during the exemption period is subject to a 4% income tax rate.

### *Tourism Incentives Program*

For many years Puerto Rico has also had incentives laws designed to stimulate investment in hotel operations on the island. The most recent of these laws, the Tourism Incentives Act of 1993, provides partial exemptions from income, property, and municipal license taxes for a period of up to ten years. The Tourism Incentives Act also provides certain tax credits for qualifying investments in tourism activities, including hotel and condo-hotel development projects. Recently enacted legislation provides further tourism incentives by granting certain tax exemptions on interest income received from permanent or interim financing of tourism development projects and fees derived from credit enhancements provided to the financing of such projects.

As part of the incentives to promote the tourism industry, the Commonwealth established the Tourism Development Fund as a subsidiary of Government Development Bank for Puerto Rico ("GDB") with the authority to (i) make investments in or provide financing to entities that contribute to the development of the tourism industry and (ii) provide financial guarantees for financing hotel development projects. To date, the Fund has provided financial guarantees for loans made or bonds issued to finance the development of fifteen hotel projects representing over 3,600 new hotel rooms.

### *Incentives under the Code*

United States corporations operating in Puerto Rico have been subject to special tax provisions since the Revenue Act of 1921. Prior to enactment of the Tax Reform Act of 1976, under Section 931 of the Code, United States corporations operating in Puerto Rico (and meeting certain source of income tests) were taxed only on income arising from sources within the United States.

The Tax Reform Act of 1976 created Section 936 of the Code, which revised the tax treatment of United States corporations operating in Puerto Rico by taxing such corporations on their worldwide income in a manner similar to that applicable to any other United States corporation but providing such corporations a full credit for the federal tax on their business and qualified investment income in Puerto Rico. The credit provided an effective 100% federal tax exemption for operating and qualifying investment income from Puerto Rico sources.

As a result of amendments to Section 936 made in 1996 (the “1996 Amendments”), the tax credit is being phased out over a ten-year period for companies that were operating in Puerto Rico in 1995 and is no longer available for corporations that establish operations in Puerto Rico after October 13, 1995. The 1996 Amendments also eliminated the credit previously available for income derived from certain qualified investments in Puerto Rico.

Section 30A. The 1996 Amendments added Section 30A to the Code. Section 30A permits a “qualifying domestic corporation” (“QDC”) that meets certain gross income tests to claim a credit (the “Section 30A Credit”) against the federal income tax imposed on taxable income derived from sources outside the United States from the active conduct of a trade or business in Puerto Rico or from the sale of substantially all the assets used in such business (“possession income”). The Section 30A Credit will not be available for taxable years commencing after 2005.

The Section 30A Credit is limited to the sum of (i) 60% of qualified possession wages as defined in the Code, which includes wages up to 85% of the maximum earnings subject to the OASDI portion of Social Security taxes plus an allowance for fringe benefits of 15% of qualified possession wages, (ii) a specified percentage of depreciation deductions ranging between 15% and 65%, based on the class life of tangible property, and (iii) a portion of Puerto Rico income taxes paid by the QDC, up to a 9% effective tax rate (but only if the QDC does not elect the profit-split method for allocating income from intangible property).

In the case of taxable years beginning after December 31, 2001, the amount of possession income that qualifies for the Section 30A Credit is subject to a cap based on the QDC’s possession income for an average adjusted base period ending before October 14, 1995 (the “income cap”).

Section 936. Under Section 936 of the Code, as amended by the 1996 Amendments, United States corporations that meet certain requirements and elect its application (“Section 936 Corporations”) are entitled to credit against their United States corporate income tax the portion of such tax attributable to income derived from the active conduct of a trade or business within Puerto Rico (“active business income”) and from the sale or exchange of substantially all assets used in the active conduct of such trade or business.

Under Section 936, a Section 936 Corporation may elect to compute its active business income, eligible for the Section 936 credit, under one of three formulas: (i) a cost-sharing formula, whereby it is allowed to claim all profits attributable to manufacturing intangibles and other functions carried out in Puerto Rico provided it makes a cost sharing payment in the amount required under Section 936; (ii) a profit-split formula, whereby it is allowed to claim 50% of the combined net income of its affiliated group from the sale of products manufactured in Puerto Rico; or (iii) a cost-plus formula, whereby it is allowed to claim a reasonable profit on the manufacturing costs incurred in Puerto Rico.

The Section 936 credit is now only available to companies that were operating in Puerto Rico on October 13, 1995, and had elected the percentage of income credit provided by Section 936. Such percentage of income credit is equal to 40% of the federal income tax otherwise imposable on the Puerto Rico active business income or derived from the sale or exchange of substantially all assets used in such business.

In the case of taxable years beginning on or after 1998, the possession income subject to the Section 936 credit is subject to a cap based on the Section 936 Corporation's possession income for an average adjusted base period ending on October 14, 1995. The Section 936 credit is eliminated for taxable years commencing after 2005.

### *Controlled Foreign Corporations*

Because of the credit limitations and impending phase out of Sections 30A and 936, many corporations previously operating thereunder have reorganized their operations in Puerto Rico to become controlled foreign corporations ("CFCs"). A CFC is a corporation that is organized outside the United States and is controlled by United States shareholders. In general, a CFC may defer the payment of federal income taxes on its trade or business income until such income is repatriated to the United States in the form of dividends or through investments in certain United States properties. The Puerto Rico Office of Industrial Tax Exemption has received notification from over eighty corporations that have converted part or all of their operations to CFCs. These include most of the major pharmaceutical, instrument and electronics companies manufacturing in Puerto Rico.

CFCs operate under transfer pricing rules for intangible income that are different from those applicable to corporations operating under Sections 936 and 30A. In many cases, they are allowed to attribute a larger share of this income to their Puerto Rico operation but must make a royalty payment "commensurate with income" to their U.S. affiliates. Section 936 companies were exempted from Puerto Rico withholding taxes on any cost sharing payments they might have opted to make, but CFCs are subject to a ten percent Puerto Rico withholding tax on royalty payments.

## **DEBT**

### **Public Sector Debt**

Public sector debt comprises bonds and notes of the Commonwealth, its municipalities, and public corporations ("notes" as used in this section refers to certain types of non-bonded debt regardless of maturity), subject to the exclusions described below. The Constitution of Puerto Rico limits the amount of general obligation (full faith and credit) debt that can be issued or guaranteed by the Commonwealth. The Commonwealth's policy has been and continues to be to maintain the amount of such debt prudently below the constitutional limitation. Direct debt of the Commonwealth is supported by Commonwealth taxes. Debt of municipalities, other than bond anticipation notes, is supported by real and personal property taxes and municipal license taxes. Debt of public corporations, other than bond anticipation notes, is generally supported by the revenues of such corporations from rates charged for services or products. See *Public Corporations*. However, certain debt of public corporations is supported, in whole or in part, directly or indirectly, by Commonwealth appropriations or taxes.

Direct debt of the Commonwealth is issued pursuant to specific legislation approved in each particular case. Debt of the municipalities is issued pursuant to resolutions adopted by the respective municipal assemblies. Debt of public corporations is issued pursuant to resolutions adopted by the governing bodies of the public corporations in accordance with their enabling statutes. GDB, as fiscal agent of the Commonwealth and its municipalities and public corporations, must approve the specific terms of each issuance.

The following table presents a summary of public sector debt as of June 30, 2004. Excluded from the table is debt not primarily payable from either Commonwealth or municipal taxes, Commonwealth appropriations or rates charged by public corporations for services or products. Also excluded from the table is debt the inclusion of which would reflect double counting, including but not limited to \$1.323 billion of outstanding bonds issued by the Municipal Finance Agency to finance its purchase of bonds of Puerto Rico municipalities, and \$1.185 billion of obligations of GDB issued to purchase certain

Commonwealth public sector debt and for other purposes, of which \$267 million is guaranteed by the Commonwealth.

**Commonwealth of Puerto Rico  
Public Sector Debt  
(in thousands)**

	<u>June 30, 2004</u>
Puerto Rico direct debt <sup>(1)</sup>	\$ 8,519,327
Municipal debt	2,046,043
Public corporations debt	
Puerto Rico guaranteed debt <sup>(2)</sup>	652,490
Debt supported by Puerto Rico appropriations or taxes <sup>(3)</sup>	14,970,726
Other non-guaranteed debt <sup>(4)</sup>	<u>7,754,058</u>
Total public corporations debt	<u>23,377,274</u>
Total public sector debt	<u>\$33,942,644</u>

- (1) Includes general obligation bonds, tax and revenues anticipation notes, and lines of credit provided by GDB. Includes \$10 million of certain indebtedness originally issued by the Urban Renewal and Housing Corporation that was transferred to the Commonwealth by virtue of Act No. 134 of the Legislature of Puerto Rico, approved on December 13, 1994 (“Act No. 134”) (such indebtedness is referred to as “Transferred CRUV Debt”). Excludes certain Commonwealth general obligation bonds that have been refunded with proceeds that were invested in guaranteed investment contracts or other securities not eligible to effect a legal defeasance, even though such bonds will be considered outstanding under their respective authorizing resolutions and for purposes of calculating the Commonwealth’s constitutional debt limitation.
- (2) Consists of \$499.9 million of bonds issued by the Aqueduct and Sewer Authority and \$152.5 million of State Revolving Fund Loans, incurred under various federal water laws. Excludes Public Buildings Authority bonds in the principal amount of \$2.898 billion as of June 30, 2004 and \$267 million of GDB bonds payable from available moneys of GDB.
- (3) Represents, among others, bonds and notes issued by the Aqueduct and Sewer Authority, the Highway and Transportation Authority, the Housing Finance Authority, the Infrastructure Financing Authority, the Public Buildings Authority and the Public Finance Corporation.
- (4) Excludes \$1.066 billion of Infrastructure Financing Authority bonds, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company. Excludes \$1.155 billion of Children’s Trust bonds which are payable solely from the payments to be received pursuant to the tobacco litigation settlement. Excludes the \$660 million of Housing Finance Authority bonds, which are payable from Puerto Rico Housing Administration’s annual allocation of Public Housing Capital Funds from the United States Department of Housing and Urban Development.

*Source:* Government Development Bank

No deductions have been made in the above table for debt service funds and debt service reserve funds. The table above and the amounts shown throughout this section as representing outstanding debt include outstanding capital appreciation bonds at their respective original principal amounts and do not include any accretion thereon.

**Debt Service Requirements for Commonwealth General Obligation Bonds and Certain Guaranteed Debt**

The following table presents the debt service requirements for Commonwealth general obligation bonds outstanding as of June 30, 2004 and bonds of the Aqueduct and Sewer Authority for which debt service payments are being made under the Commonwealth guaranty.

The table excludes debt service on certain general obligation bonds refunded with refunding bonds the proceeds of which, pending the redemption of the refunded bonds, were invested in guaranteed investment contracts or other securities not eligible to effect a legal defeasance. Such refunded bonds will be considered to be outstanding under their respective authorizing resolutions and for purposes of calculating the Commonwealth's constitutional debt limitation. With respect to other debt of the Aqueduct and Sewer Authority, see *Public Corporations*. Debt service requirements for each fiscal year, as shown in the following table, include principal and interest due on July 1 immediately following the close of such fiscal year.

## **Commonwealth Guaranteed Debt**

As of June 30, 2004, \$2.898 billion of Commonwealth guaranteed bonds of the Public Buildings Authority were outstanding. Maximum annual debt service on these bonds is \$219.5 million in fiscal year ending June 30, 2011, with their final maturity being July 1, 2036. No payments under the Commonwealth guaranty have been required to date for bonds of the Public Buildings Authority.

As of June 30, 2004, \$267 million of Commonwealth guaranteed obligations of GDB were outstanding. No payments under the Commonwealth guaranty have been required for any obligations of GDB to date.

As of June 30, 2004, the aggregate outstanding principal amount of the Series 1995 revenue bonds of the Aqueduct and Sewer Authority guaranteed by the Commonwealth was \$318.1 million. On January 2, 1997, the Commonwealth began to make debt service payments under the Commonwealth guaranty and expects to make all debt service payments required on these revenue bonds.

In addition, in April 2000, the Commonwealth extended its guaranty to all of the outstanding bonds issued by the Aqueduct and Sewer Authority to the United States Department of Agriculture, Rural Development, and to all of the outstanding loans by the State Revolving Funds for the benefit of the Aqueduct and Sewer Authority. The guaranty will also cover any additional bonds and loans that may be issued until June 30, 2005. It is expected that this guaranty will be extended through new legislation to cover debt obligations issued until 2010. As of June 30, 2004, the principal amount outstanding on these bonds was \$181.9 million and the principal amount outstanding of these loans was \$152.5 million.

## **Trends of Public Sector Debt**

The following table shows the growth rate of short-term and long-term public sector debt and the growth rate of gross product (in current dollars) for the five fiscal years ended June 30, 2004. As of June 30, 2004, outstanding short-term debt, relative to total debt, was 6.4%.

**Commonwealth of Puerto Rico  
Public Sector Debt and Gross Product  
(dollars in millions)\***

\*Totals may not add due to rounding.

- (1) In current dollars.
- (2) Obligations (other than bonds) issued with an original maturity of three years or less and lines of credit with a remaining maturity of three years or less are considered short-term debt.
- (3) Does not include the tax and revenue anticipation notes that were outstanding at the close of the indicated fiscal years because prior to the end of said fiscal years sufficient funds had been set aside for the payment of such notes in full.
- (4) Excludes \$397.0 million of bonds of Children's Trust outstanding on this date. If these bonds had been included, the rate of growth of public sector debt for fiscal year 2001 would have been 12.1%. Excludes \$1.093 billion of bonds of Infrastructure Financing Authority outstanding on this date, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company.
- (5) Includes a \$164 million line of credit from GDB to the Secretary of the Treasury the proceeds of which were applied to pay debt service on general obligation bonds in lieu of funds available therefor in the General Fund.
- (6) Excludes \$390.1 million of bonds of Children's Trust outstanding on this date. Excludes \$1.082 billion of bonds of Infrastructure Financing Authority outstanding on this date, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company.
- (7) Excludes \$1.171 billion of bonds of Children's Trust outstanding on this date. Excludes \$1.074 billion of bonds of Infrastructure Financing Authority outstanding on this date, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company.
- (8) Excludes \$1.155 billion of bonds of Children's Trust outstanding on this date. Excludes \$1.066 billion of bonds of Infrastructure Financing Authority outstanding on this date, which are payable solely from the investment income of funds on deposit in the Infrastructure Development Fund consisting of proceeds from the sale of a controlling interest in Puerto Rico Telephone Company.

## PUBLIC CORPORATIONS

In Puerto Rico, many governmental or quasi-governmental functions are performed by public corporations. These are governmental entities created by the Legislature with varying degrees of independence from the central government. Public corporations are generally created to perform a single function or a limited number of related functions. Most public corporations obtain revenues from rates charged for services or products, but many are subsidized to some extent by the central government. Most public corporations are governed by boards appointed by the Governor with the advice and consent of the Senate, but some public corporations are subsidiaries of departments of the central government. Capital improvements of most of the larger public corporations are financed by revenue bonds under trust agreements or bond resolutions or notes under loan agreements. The following table presents the outstanding bonds and notes of certain of the public corporations as of June 30, 2004 ("notes" as used in this section refers primarily to certain types of non-bonded debt regardless of maturity). Debt of certain other public corporations is excluded from this table because such debt is payable primarily from funds or grants provided by the federal government or is payable from sources other than Commonwealth appropriations or taxes or revenues of public corporations, or is payable from revenues derived from

private sector services or products, such as industrial development bonds. Also excluded from this table is debt of certain public corporations the inclusion of which would reflect double counting. No deductions have been made in the table for debt service funds and debt service reserve funds. More detailed information about the major public corporations is presented in the following sections.

### Government Development Bank for Puerto Rico

The principal functions of GDB are to act as financial advisor to and fiscal agent for the Commonwealth, its municipalities and public corporations in connection with the issuance of bonds and notes, to make loans and advances to public corporations and municipalities, and to make loans to private enterprises to aid in the economic development of Puerto Rico.

As of June 30, 2004, \$1.5 billion of bonds and notes of GDB were outstanding. As of said date, GDB also had \$3.6 billion in loans to the central government of the Commonwealth and its public corporations and municipalities. Act No. 12 of May 9, 1975, as amended, provides that the payment of principal of and interest on specified notes and other obligations of GDB, not exceeding \$550 million, may be guaranteed by the Commonwealth, of which \$267 million were outstanding as of June 30, 2004.

Act No. 271 of November 21, 2002, requires GDB to provide the Special Communities Perpetual Trust with a \$500 million line of credit and to make a capital contribution to the Trust of \$500 million. This contribution will be withdrawn from GDB's equity capital and disbursed gradually to the Trust after full disbursement of the line of credit. See "Other Public Corporations – Special Communities Perpetual Trust" below. GDB expects to replenish its equity capital with future operating net income. As of June 30, 2004, the Trust had drawn approximately \$90.9 million on the line of credit.

Act No. 82 of June 16, 2002, authorizes GDB to transfer every year to the Commonwealth's General Fund up to 10% of its audited net income or \$10,000,000, whichever is greater.

GDB has the following principal subsidiaries:

*Housing Finance Authority* (formerly known as Housing Finance Corporation) was originally created in November 1977 to provide needed rental-housing units and stimulate the construction industry under federally subsidized programs. Effective February 8, 2002, the Housing Finance Corporation became the Housing Finance Authority and the Housing Bank and Finance Agency was dissolved and its powers transferred to the Authority. The Authority is engaged in insuring and servicing mortgages originated by the Urban Renewal and Housing Corporation. It also provides financing for rental housing units, stimulates the construction industry under federally subsidized programs and provides interim financing for low-income housing projects and single-family homeownership programs. Housing Finance Corporation had issued tax-exempt revenue bonds and notes to finance the construction of housing units approved for federal rental subsidies and to finance home ownership of single family housing units, which bonds and notes are now limited obligations of the Housing Finance Authority payable solely from revenues collected in respect of such housing units. The Federal Housing Administration has insured mortgages on certain of the housing units. As of June 30, 2004, \$826.3 million of Housing Finance Authority bonds and notes were outstanding (excluding bonds payable solely from securities pledged to the payment of such bonds and bonds payable solely from federal funds).

As of June 30, 2004, the Authority also had outstanding \$676.4 million of bonds issued to (i) pay obligations of the Commonwealth under law, (ii) fund certain payments of the Commonwealth under its mortgage subsidy program for low and moderate income families, (iii) guarantee certain insurance obligations of the Housing Bank and Finance Agency under certain programs.

*Tourism Development Fund* was created in November 1993 to promote Puerto Rico's hotel and tourism industry, primarily by making available guarantees to secure the payment of private financing used for new hotel development projects. The Tourism Development Fund is also authorized to make capital investments and provide direct financing to tourism related projects. As of June 30, 2004, the Tourism Development Fund had outstanding loans and guarantees with respect to the financing of fourteen hotel and tourism-related projects in an aggregate amount in excess of \$562.5 million.

The Tourism Development Fund has made payments under its guarantees and letters of credit in the aggregate amount of approximately \$216.7 million with respect to several projects, including repayment in full of the bonds of three projects, which bonds had been declared due and payable at the direction of the Tourism Development Fund due to the failure of the borrowers of such projects to comply with their obligations under the related reimbursement agreements. After taking these payments and all related recoveries into consideration, the unrestricted net assets of the Tourism Development Fund as of

June 30, 2004 were approximately \$92.4 million (unaudited), and its allowance for loan losses on guarantees, loans, and letters of credit was approximately \$36.4 million (unaudited).

*Development Fund* was created in 1977 to provide an alternate source of financing to private enterprises in Puerto Rico that have difficulties in obtaining financing from traditional sources. The Development Fund may also guarantee obligations of these enterprises and invest in their equity securities.

*Capital Fund* was created in November 1993 for trading in debt obligations and publicly traded shares of domestic and foreign corporations.

*Public Finance Corporation* was created in December 1984 to provide agencies and instrumentalities of Puerto Rico with alternate means of meeting their financing requirements. As of June 30, 2004, the Corporation had \$4.333 billion aggregate principal amount of bonds outstanding, substantially all of which have been issued to purchase debt of agencies and instrumentalities of the Commonwealth, and are payable from Commonwealth appropriations.

A description of certain other affiliates of GDB is provided in “Other Public Corporations” below.

### **Other Public Corporations**

*Aqueduct and Sewer Authority.* Puerto Rico Aqueduct and Sewer Authority (“PRASA”) owns and operates a system of public water supply and sanitary sewer facilities.

PRASA needs to make a substantial investment in infrastructure and a major overhaul of its operations to maintain the viability of the existing system and to finance its expansion for new users. Funds for this investment are expected to be provided through a combination of revenues from PRASA, bond issues, legislative appropriations, and federal grants. Debt service on revenue bonds is payable from net revenues of the system after payment of current expenses. Due to PRASA’s financial difficulties (discussed below) and its inability to access the bond market, Act No. 45 was enacted in July 1994 to provide a Commonwealth guaranty of the principal and interest payments to the bondholders of all outstanding revenue bonds issued by PRASA. In addition, Act No. 45 was amended in 2000 to extend the Commonwealth payment guaranty to all outstanding bonds issued by PRASA to the United States Department of Agriculture, Rural Development, and loans granted by the Clean Water and Drinking Water State Revolving Funds for the benefit of PRASA. The guaranty will cover additional debt obligations issued by PRASA prior to July 1, 2005. It is expected that this guaranty will be extended through new legislation to include debt obligations issued until 2010.

PRASA has reported net losses of \$100.7 million, \$0.5 million, \$191.8 million and \$185.8 million during fiscal years 2000, 2001, 2002 and 2003, respectively. The net losses reported for fiscal years after 2000 are not comparable to the losses reported in prior fiscal years due to the implementation of a change in government accounting rules which allows governmental grants to be treated as revenues instead of as capital contributions. Without such favorable treatment of government grants, PRASA’s net loss would have been \$169.6 million in fiscal year 2001, \$349 million in fiscal year 2002 and \$189.3 million in fiscal year 2003. These losses reflect the continuing financial and operating difficulties that PRASA has experienced in recent years. The total debt of PRASA was \$717 million as of June 30, 2004.

From May 1995 until March 2004, the operation, management, repair, and maintenance of PRASA’s systems were in the hands of private companies. The most recent agreement for the private management of PRASA’s systems was entered into in May 2002 with Ondeo Puerto Rico, Inc. (“Ondeo”). In January 2004, Ondeo and PRASA agreed to terminate their agreement and in April 2004, the operation, management, repair, and maintenance of the PRASA systems returned to PRASA.

As part of the plan for the return of the operation and management of the PRASA systems to PRASA, legislation was enacted in March 2004 to restructure PRASA and provide further powers to improve its operational and financial management. The main areas of this restructuring included (i) decentralizing the administration of PRASA by creating five regions to provide greater efficiency in, and financial control of, the day to day administration and operational decision making process and execution; (ii) creating the positions of five Executive Regional Directors and an Executive Director for Infrastructure, who will, respectively, manage each region and manage capital improvement projects; and (iii) providing for six-year appointments for each of the Executive Regional Directors, Executive Director for Infrastructure and Executive President aiming to give continuity to top management in order to better implement, supervise and revise as needed the ten-year plan and goals identified for PRASA in 2002 and included in the management contract with Ondeo. Further powers granted include the authority to make certain determinations and take certain actions with respect to compliance of the water and sewer system with various federal environmental laws.

*Children's Trust* is a not-for-profit corporate entity created in 1999 as a public instrumentality of the Commonwealth. The Commonwealth has transferred to Children's Trust all of its rights, title and interest under the tobacco litigation Master Settlement Agreement, including the Commonwealth's right to receive initial, annual and strategic contribution payments to be made by the participating cigarette manufacturers under the Master Settlement Agreement.

Children's Trust issued \$1.171 billion aggregate principal amount of Tobacco Settlement Asset-Backed Bonds in October 2002. As of June 30, 2004, the outstanding principal amount of the bonds was \$1.155 billion. These bonds and any other additional senior bonds issued by Children's Trust are secured by a statutory pledge of the payments made and to be made by participating manufacturers under the Master Settlement Agreement. To date, all payments required to be made under the Master Settlement Agreement have been made on a timely basis and Puerto Rico's share thereof has been received by Children's Trust.

*Convention Center District Authority* was created to own, develop, finance, plan, design, build, operate, maintain, administrate and promote the Convention Center and designated private parcels located within the Convention Center District in San Juan. The Authority currently has lines of credit with GDB totaling \$415.7 million, of which \$205.5 million was outstanding as of June 30, 2004. As further discussed below, a recently inaugurated multi-purpose coliseum in San Juan has been transferred to the Convention Center District Authority.

*Electric Power Authority* owns and operates the island's electric system. The capital improvement program for the five-year period ending June 30, 2008, is estimated to cost approximately \$2.1 billion and will be financed primarily by borrowed funds, supplemented by internally generated funds. The Authority's bonded debt consists of Power Revenue Bonds, secured by a lien on net revenues of the electric system. As of June 30, 2004, the Authority's total debt was \$5.219 billion, including \$5.033 billion of bonds outstanding (not including accretion of interest from the respective issuance dates on capital appreciation bonds). As a means of reducing its dependency on oil, the Authority has entered into long-term power purchase contracts with the operators of two cogeneration plants that use fuels other than oil. These two cogeneration projects consist of EcoElectrica LP's 507 megawatts liquefied natural gas plant at Guayanilla and a 454 megawatts clean coal facility at Guayama operated by an affiliate of Applied Energy Systems ("AES"). EcoElectrica's and AES's plants started commercial operations in March 2000 and November 2002, respectively. Currently, these two cogeneration plants provide approximately 26% of the Authority's energy needs.

*Health Insurance Administration* was created in 1993 to implement the health reform by negotiating and contracting for the provision of comprehensive health insurance coverage for qualifying (generally low income) Puerto Rico residents. Under this system, the government selects, through a bidding system, one private health insurance company in each of several designated regions of the island

and pays such insurance company the insurance premium for each eligible beneficiary within such region. The health insurance system covers all of the municipalities, and approximately 1.5 million persons were covered by the system during fiscal year 2004.

The total cost of the health insurance program for fiscal year 2004 is estimated at \$1.354 billion, compared to \$1.248 billion for fiscal year 2003 and \$1.271 billion for fiscal year 2002. For fiscal year 2004, the General Fund covered \$964.5 million of the total cost of the health insurance program, while the remaining \$390 million was expected to be paid from federal and municipal sources. The fiscal year 2005 budget estimates the cost of the health insurance program to be \$1.444 billion, of which the General Fund is estimated to cover \$984.5 million, while the remaining \$460 million is expected to be paid from federal and municipal sources.

*Highway and Transportation Authority* is responsible for highway construction in Puerto Rico. Such construction is financed by debt (interim notes and revenue bonds), revenues of the Authority, and federal and Commonwealth grants. Debt service on the Authority's revenue bonds constitutes a first lien on its gross revenues, which consist currently of all the proceeds of the gasoline tax; one-half of the proceeds of the tax on gas oil or diesel oil; all the proceeds of the excise taxes on crude oil, unfinished oil and derivative products, up to \$120 million per fiscal year; highway toll revenues; and the gross receipts of \$15.00 per vehicle per year from certain motor vehicle license fees. Such revenues (except for toll revenues) may be applied first to the payment of debt service on general obligation bonds and notes of the Commonwealth and payments required to be made by the Commonwealth under its guarantees of bonds and notes to the extent that no other revenues are available for such purpose. The Commonwealth has never applied such revenues for such payment. In April 2004, the Authority issued approximately \$140 million of bonds secured solely by Federal Highway Aid grant revenues. As of June 30, 2004, the Authority's total debt was \$5.799 billion.

The Authority has almost completed the first phase of a new mass transit system, known as Tren Urbano, to serve a portion of metropolitan San Juan. The first phase of Tren Urbano was constructed under several design/build contracts, including a design/build/operate contract covering the design and construction of the system and the operation of Tren Urbano for five years with an additional five-year option at the Authority's election. The cost of the first phase is estimated to be \$2.3 billion, which cost was financed by Federal Transit Administration grants, other federal funding sources and the Authority's own resources, including bond financings.

The Authority is a party to a concession agreement under which a private company designed, constructed and currently is operating a toll bridge spanning the San José Lagoon. The toll bridge was financed with special facility revenue bonds of the Authority, the outstanding principal balance of which was \$153.2 million as of December 31, 2003, payable by the private operator of the bridge principally from toll revenues. The concession is for a term of 35 years, subject to earlier termination or extension. The bridge opened for traffic in February 1994. In certain circumstances as described in the concession agreement, including where toll revenues are insufficient to generate certain rates of return to the private operator, the private operator may require the Authority, among other things, to assume the operator's obligations with respect to the special facility revenue bonds. Some of those circumstances, including low toll revenues, exist at this time, but the Authority does not currently anticipate that the operator will exercise its remedy against the Authority.

*Puerto Rico Industrial Development Company* participates in the Commonwealth-sponsored economic development program by providing physical facilities, general assistance, and special incentive grants to manufacturers. The Company was merged with the Economic Development Administration in January 1998. Rentals derived from the leasing of specified facilities of the Company are pledged to the payment of the Company's revenue bonds. As of June 30, 2004, the Company's total debt was \$338.2 million.

*Industrial, Tourist, Educational, Medical and Environmental Control Facilities Financing Authority* (“AFICA”) was created in June 1977. The Authority has issued revenue bonds to finance industrial, tourist, environmental control, medical, and educational facilities in Puerto Rico for the use of private companies, non-profit entities, or government agencies. The bonds are payable solely from payments to be made to the Authority by such private companies, non-profit entities, or government agencies, and do not constitute a debt of the Commonwealth or any of its other public corporations or municipalities. As of June 30, 2004, approximately \$2.2 billion of the Authority’s bonds were outstanding. The Authority has financed the construction of a multi-purpose coliseum in San Juan with a line of credit provided by GDB, which line had an outstanding balance of \$140.9 million as of June 30, 2004. The coliseum was recently completed and transferred to the Convention Center District Authority.

*Infrastructure Financing Authority* was created in June 1988 to provide financial, administrative, consulting, technical, advisory, and other types of assistance to other public corporations and governmental instrumentalities of Puerto Rico authorized to develop infrastructure facilities and to establish alternate means for financing infrastructure facilities. The Authority is authorized to issue bonds and provide loans, grants and other financial assistance for the construction, acquisition, repair, maintenance and reconstruction of infrastructure projects by public corporations and instrumentalities of the Commonwealth. The Authority’s enabling act also established the Puerto Rico Infrastructure Fund, funded with annual fixed amounts from the first proceeds of federal excise taxes imposed on rum and other articles produced in Puerto Rico and sold in the United States which are transferred to Puerto Rico pursuant to the United States Internal Revenue Code of 1986, as amended. Currently, this amount is \$70 million, and it will increase to \$90 million for fiscal years 2007 to 2052. The Authority is using these amounts to provide financial support to water and sewer projects. As of June 30, 2004, the Authority’s total debt was \$936.7 million.

The Authority is providing assistance to the Aqueduct and Sewer Authority with regards to (i) the design and construction of various strategic regional water and sewer projects intended to provide improved services to targeted regions throughout the island, (ii) the implementation of an action plan to address a number of small water and sewer rehabilitation projects, (iii) the achievement of compliance with certain environmental laws, and (iv) the establishment of a prioritized capital program.

In June 1998, the Authority’s enabling act was amended to establish the Infrastructure Development Fund, a permanent trust fund to be utilized by the Authority for the purpose of financing infrastructure projects. The Infrastructure Development Fund was initially funded in March 1999 with \$1.2 billion of proceeds received by the Telephone Authority from the sale of a controlling interest in Puerto Rico Telephone Company. This initial amount will remain permanently deposited in a segregated, perpetual account, denominated the “corpus account,” and must be invested exclusively in U.S. government or U.S. government-backed obligations. The income from such investment may only be used to finance infrastructure projects related to the Commonwealth’s water and sewer systems. Other moneys in the Infrastructure Development Fund not attributable to the corpus account or the investment income thereon may be used for other infrastructure projects. The Authority is the custodian and administrator of the Infrastructure Development Fund. In October 2000, the Authority issued \$1.093 billion of bonds payable from and secured by a pledge of the interest received by the Authority from the investments of the Infrastructure Development Fund. The proceeds of this bond issue are being used to finance certain aqueduct and sewer infrastructure development projects.

*Maritime Shipping Authority* commenced operations in 1974 upon the acquisition of three shipping lines serving Puerto Rico and the United States mainland. In 1995, the assets and operations of the Maritime Shipping Authority were sold to a private investor group. The remaining debt of the Authority was refinanced through the issuance of bonds by Public Finance Corporation, a subsidiary of GDB. The aggregate principal amount of such bonds outstanding as of June 30, 2004, was \$312.2 million (not including accreted values of capital appreciation bonds outstanding). The bonds are payable from funds to be appropriated annually by the Legislature of Puerto Rico.

*Municipal Finance Agency* was created in 1972 as a municipal “bond bank” for Puerto Rico. The Agency is authorized to issue bonds to purchase general obligation bonds and notes of Puerto Rico municipalities and to fund a debt service reserve. Debt service on the Agency’s bonds is payable from debt service payments on municipal bonds held by the Agency and from the debt service reserve, including investment income thereon. The Commonwealth has agreed to pay such amounts to the debt service reserve as may be necessary to maintain it at its required level, subject to appropriation by the Legislature, which appropriation is authorized but not legally required to be made. To date no such payments have been required. As of June 30, 2004, the Agency had \$1.323 billion of bonds outstanding.

*Ports Authority* owns and operates the major airport and seaport facilities in Puerto Rico. The Authority derives revenues from a variety of sources, including charges on airplane fuel sales, air terminal space rentals, landing fees, wharfage, dockage and harbor fees, and rentals for the lease of seaport equipment and property. Act No. 1 of January 1, 2000, authorized the transfer of the Authority’s maritime ferry operations to Puerto Rico Maritime Transportation Authority, a newly created government agency. As of June 30, 2004, the Authority had \$392.7 million in debt, including \$313.8 million under a line of credit with GDB.

*Public Buildings Authority* is authorized to construct, purchase or lease office, school, health, correctional and other facilities for lease to departments, public corporations, and instrumentalities of the Commonwealth. Bonds that have been issued by the Authority to finance such facilities (through retirement of interim notes or otherwise) are payable from lease payments, which are largely derived from legislative appropriations and are further secured by the Commonwealth’s guaranty. The Authority is authorized by law to have outstanding at any one time up to \$3.325 billion of bonds guaranteed by the Commonwealth. As of June 30, 2004, \$2.898 billion of such bonds of the Authority was outstanding (not including accretion of interest from the respective issuance dates on capital appreciation bonds).

*Special Communities Perpetual Trust* is an irrevocable and permanent trust created in November 2002 as a public corporation. The Trust’s principal purpose is to fund development projects which address the infrastructure and housing needs of underprivileged communities. The Trust’s capital will consist of moneys drawn under a \$500 million GDB line of credit, which is currently in use by the Trust, and a \$500 million grant from GDB to be disbursed over time after the line of credit has been fully disbursed. As of June 30, 2004, the Trust’s GDB line of credit had an outstanding balance of \$90.9 million.

*Telephone Authority* was created in July 1974 when the Commonwealth purchased the Puerto Rico Telephone Company (“PRTC”) from International Telephone and Telegraph Corporation. PRTC operates the principal telephone system in Puerto Rico.

In March 1999, the Telephone Authority sold a controlling interest in PRTC to a consortium led by GTE International Telecommunications Incorporated, which was acquired by Verizon Communications, Inc. The net proceeds of the sale received at closing were applied to defease outstanding bonds of the Authority in the principal amount of \$756 million, to make a \$1.2 billion deposit to the Infrastructure Development Fund held by the Infrastructure Financing Authority and to pay certain benefits to PRTC employees. In January 2002, Verizon exercised its option to purchase an additional 15% of PRTC stock for \$172 million. The Commonwealth retains a 28% stock participation in PRTC. The proceeds from the Verizon stock option exercise and the remaining 28% ownership interest were transferred to the Employees Retirement System of the Commonwealth and its instrumentalities.

*University of Puerto Rico* (the “University”), with 68,627 students in academic year 2003-2004, is by far the largest institution of higher education on the island. Government appropriations are the principal source of University revenues, but additional revenues are derived from tuition, student fees, auxiliary enterprises, interest income, federal grants, and other sources. University capital improvements have been financed mainly by revenue bonds. As of June 30, 2004, the University’s total debt was \$425.2 million.

On December 21, 2000, AFICA issued its \$86,735,000 Educational Facilities Revenue Bonds, 2000 Series A (University Plaza Project) for the purpose of financing the construction of additional student housing and parking and office space for the University. The project is being built and will be operated by Desarrollos Universitarios, Inc., a Puerto Rico not-for-profit corporation, and will be leased to the University for a term equal to the term of the bonds with lease payments being in sufficient amounts to pay debt service on said bonds as they become due.

*Other public corporations* (not described above) have outstanding debt in the aggregate amount of \$793.6 million as of June 30, 2004. Debt service on \$265.3 million of such outstanding debt is being paid from legislative appropriations. However, the Commonwealth is not obligated to make any such appropriations. Additional legislative appropriations are made to enable certain of such corporations to pay their operating expenses.

## **INSURANCE MATTERS**

Government-owned property is insured through policies obtained by the Secretary of the Treasury and through self-insurance, except for property owned by the Electric Power Authority and the Aqueduct and Sewer Authority, which is insured through arrangements and policies obtained by the respective Authorities. Personal injury awards against the Commonwealth are limited by law to \$150,000 per occurrence.

## **RETIREMENT SYSTEMS**

Public employees of the Commonwealth and its instrumentalities are covered by five retirement systems: the Employees Retirement System of the Commonwealth and its instrumentalities (the "Employees Retirement System"), the Annuity and Pension System for the Teachers of Puerto Rico (the "Teachers Retirement System"), the Commonwealth Judiciary Retirement System (the "Judiciary Retirement System"), the Retirement System of the University of Puerto Rico (the "University Retirement System"), and the Employees Retirement System of Puerto Rico Electric Power Authority (the "Electric Power Authority Retirement System").

The University Retirement System and the Electric Power Authority Retirement System apply to employees of the University of Puerto Rico and Electric Power Authority, respectively. The Commonwealth is not required to contribute directly to those two systems, although a large portion of University revenues is derived from legislative appropriations.

The Teachers Retirement System covers primarily public school teachers, the Judiciary Retirement System covers judges, and the Employees Retirement System covers all other employees of the Commonwealth, its municipalities and instrumentalities. As of June 30, 2003, the total number of active members of the three systems was as follows: Employees Retirement System, 166,914; Teachers Retirement System, 49,046; and Judiciary Retirement System, 338. The three systems are financed by contributions made by employers (the Commonwealth, public corporations, and municipalities) and employees, and investment income. The central government is responsible for approximately 67% of total employer contributions to the Employees Retirement System, and the other 33% is the responsibility of public corporations and municipalities. The central government is also responsible for 100% and 99% of total employer contributions to the Judiciary and Teachers Retirement Systems, respectively. Retirement and related benefits provided by the systems and required contributions to the systems by employees are determined by law. Required employers' contributions to the systems are determined by law and are not actuarially determined. For the Employees Retirement System, required employer contributions consist of 9.275% of applicable payroll in the case of municipalities, central government and public corporations. Required employee contributions for the Employees Retirement System vary according to salary and how the individual employee's retirement benefits are coordinated with social

security benefits. For the Judiciary Retirement System, required contributions consist of 20% of applicable payroll for the employer and 8% for the employees.

According to the most recent actuarial valuation of the Employees Retirement System and Judiciary Retirement System submitted by a firm of independent consulting actuaries, as of June 30, 2001, the total pension benefit obligation for the Employees Retirement System and Judiciary Retirement System was \$9.881 billion and \$162.2 million, respectively. The unfunded pension benefit obligation of the Employees Retirement System and Judiciary Retirement System for the same period was \$7.453 billion and \$92.1 million, respectively, representing a funding ratio of 25% and 43%, respectively. This funding ratio does not take into account the reduction in the value of their respective equity portfolios resulting from the decline in the equities market since fiscal year 2001. It is estimated that as of June 30, 2003, the total pension benefit obligation for the Employees Retirement System is \$11.292 billion and the unfunded pension benefit obligation is \$9.349 billion, representing a funding ratio of 17%.

The most recent actuarial valuation was completed in accordance with the "Projected Unit Credit" method. An investment return of 8.5% per year, a salary increase of 5% per year, and a post-retirement benefit increase of 3% every third year were assumed. In the case of the Employees Retirement System, Act No. 10 of May 21, 1992 provided three benefit increases of 3% each. The first 3% increase was granted to retirees who had been receiving their annuities for three or more years as of that date. The second 3% increase was granted to retirees who had been receiving their annuities for three or more years as of January 1, 1995. This increase is being financed by additional contributions from the employers. The third 3% increase was granted to retirees who had been receiving their annuities for three or more years as of January 1, 1998. This third increase is being partially funded with additional contributions from some of the employers. In June 2001, the Legislature approved a law providing a fourth 3% increase, effective as of January 1, 2001, in post-retirement annuity payments granted on or prior to January 1, 1998. This increase will be funded by the General Fund for retirees who were employees of the central government and by municipalities and public corporations for retirees who were their employees. In June 2003, the Legislature approved a law providing a fifth increase of 3% in post retirement benefits effective January 1, 2004. This increase will also be funded by the General Fund for retirees who were employees of the central government and by municipalities and public corporations for retirees who were their employees. Subsequent increases will depend upon the explicit approval of the System's Board of Trustees and the Legislature, and must provide a funding source. In the case of the Judiciary Retirement System, Act No. 41 of June 13, 2001 provides a 3% increase in annuity payments, commencing on January 1, 2002 and every three years thereafter, to retirees who have been receiving their annuities for three or more years as of that date. This increase will be funded by the General Fund.

In 1990, the organic act of the Employees Retirement System was amended to reduce the future pension liabilities of the Employees Retirement System. Among other provisions, the legislation increased the level of contribution to the System and limited the retirement benefits for new employees by increasing the length of time for the vesting of certain benefits and reducing the level of benefits in the case of early retirement. The legislation also reduced the level of occupational disability benefits and death benefits received by new employees.

In 1999, the organic act of the Employees Retirement System was further amended to change it, prospectively, from a defined benefit system to a defined contribution system. This amendment provides for the establishment of an individual account for each employee hired by the Commonwealth after December 31, 1999 and for those current employees who elect to transfer from the existing defined benefit system. The individual account of each current employee is credited initially with an amount equal to his aggregate contributions to the Employees Retirement System, plus interest. Current employees who did not elect to transfer to the new defined contribution system will continue accruing benefits under the current defined benefit system. The individual account of each participant of the new defined contribution system is credited monthly with the participant's contribution and is credited semiannually with a rate of return based on either of two notional investment returns. Such accounts are

not credited with any contribution by the employer. Instead, employer contributions will now be used completely to reduce the accumulated unfunded pension liability of the Employees Retirement System.

The law approving the sale of a controlling interest in PRTC to a consortium led by GTE International Telecommunications Incorporated (subsequently acquired by Verizon Communications Inc.) provides that any future proceeds received by the government from the sale of its then remaining 43% stock ownership in PRTC will be transferred to the Employees Retirement System to reduce its accumulated unfunded pension benefit obligation. In January 2002, Verizon exercised its option to purchase an additional 15% of the stock of PRTC for \$172 million. The proceeds of the sale were transferred to the Employees Retirement System.

The Employees Retirement System's disbursements of benefits during fiscal years 2002, 2003, and 2004 exceeded contributions and investment income for those years. The cash shortfall for fiscal years 2002 and 2003 was covered with a portion of the proceeds from the sale to Verizon of the 15% stock ownership in PRTC.

The Employees Retirement System anticipates that its future cash flow needs for disbursement of benefits to participants may exceed the sum of the employer and employee contributions received and its investment and other recurring income. The Employees Retirement System expects to cover this cash flow imbalance in the next few fiscal years with the proceeds from the sale of the remaining shares of PRTC stock. The Employees Retirement System is currently evaluating other measures to increase its revenues.

According to the most recent actuarial valuation of the Teachers Retirement System submitted by a firm of independent consulting actuaries, as of June 30, 2001, the accrued actuarial liability of the system was \$3.684 billion and the value of assets amounted to \$2.284 billion, representing a funding ratio of 62%, and the resulting unfunded accrued liability was \$1.400 billion. This funding ratio does not take into account the recent significant decline in the equities market and the resulting reduction in the value of the equity portfolio. As of June 30, 2003, the estimated annual actuarial liability was \$3.921 billion, and the value of assets amounted to \$2.142 billion, representing an estimated funding ratio of 55% and an estimated unfunded accrued liability of \$1.779 billion. As of June 30, 2000, the remaining amortization period for the unfunded liability was 19 years. The actuarial valuation assumed an investment return of 8% per year and salary increases of 5% per year. Act No. 45 of January 27, 2000 increased the amount of the employee contribution from 7% to 9%, effective immediately. This will result in an increase of employee contributions of \$1.5 million per month.

The following table presents, in summary form, the income and expenses of the retirement systems for the fiscal years ended June 30, 2001, June 30, 2002, and June 30, 2003. The investment income figures presented in the table include unrealized gains and losses.

## COMMONWEALTH FINANCIAL STATEMENTS

For fiscal year 2003, the financial statements of the Commonwealth were audited by KPMG LLP. KPMG LLP did not audit the financial statements of the Public Buildings Authority capital project fund (a major fund), and certain activities, funds and component units identified separately in their report. Those financial statements were audited by other auditors whose reports were furnished to KPMG LLP, and its opinion on the basic financial statements, insofar as it relates to the amounts included in the basic financial statements pertaining to such activities, funds and component units, was based solely on the reports of the other auditors.

It is expected that the financial statements of the Commonwealth for fiscal year 2004 will be available during the second quarter of fiscal year 2005. Preparation of the financial statements of the Commonwealth involved the collection and combination of audited financial statements from approximately fifty separate reporting entities.

### PUERTO RICO TAXES, OTHER REVENUES AND EXPENDITURES

The Secretary of the Treasury has custody of the funds of the central government and is responsible for the accounting, disbursement and investment of such funds. Central government funds are grouped into three major categories or “types” of funds, as follows: (i) Governmental Fund Types, which include the General, Special Revenue, Debt Service (also referred to herein as Redemption), and Capital Project Funds; (ii) Proprietary Fund Types, which include the Enterprise and Internal Service Funds; and (iii) Fiduciary Fund Types, which include the Trust and Agency Funds. These funds do not include funds of the municipalities, because the municipalities are governmental entities with independent treasuries. The Special Revenue Fund is incorporated into the General Fund for financial reporting purposes (but not for budgetary purposes).

The General Fund is the primary operating fund of the Commonwealth. General Fund revenues are broadly based and include revenues raised internally as well as those from non-Puerto Rico sources. Internal revenues consist principally of income taxes and excise taxes. Revenues from non-Puerto Rico sources are derived from federal excise taxes and customs duties returned to the Commonwealth. The primary expenditures of the Commonwealth through the General Fund are for grants and subsidies, and personal and other services.

#### Summary and Management’s Discussion of General Fund Results

The following table presents the revenues and expenditures of the General Fund on a cash basis for fiscal year 2000 through fiscal year 2004 and the budgeted revenues and expenditures for fiscal year 2005. The information through fiscal year 2003 is based on actual fiscal year-end results. The information relating to fiscal year 2004 is preliminary and subject to audit adjustments. The information relating to fiscal year 2005 is based on the current budget of revenues and expenditures for fiscal year 2005.

The amounts shown on the table as expenditures may be different than those reflected in the budget or in the Commonwealth’s financial statements because the table shows only cash disbursements, while the budget includes all authorized expenditures, regardless of when the related cash is actually disbursed. In addition, transfers to the Redemption Fund (used to pay debt service on the Commonwealth’s bonds), which are included in the budget under “debt service,” are shown as a deduction from total revenues in calculating “adjusted revenues” in the table and are not included under “expenditures.” Finally, certain expenditures incurred in excess of budgeted amounts may not be reflected in the table as expenditures to the extent they are paid from reserve funds, such as moneys in the Budgetary Fund. For example, in fiscal years 2003 and 2004, there were approximately \$150 million and

\$85 million, respectively, of such expenditures that are not reflected in the table. A discussion of the budget for fiscal year 2005 appears below under “Budget of the Commonwealth of Puerto Rico.”

Amounts listed under “Other Income” represent recurring General Fund revenues not appropriately attributable to other revenue line items, such as repayment of General Fund advances to municipalities and government agencies and funds. “Other Expenditures” represent recurring General Fund expenditures not appropriately attributable to other expenditures line items, such as advances to government agencies and municipalities, which advances are to be reimbursed to the General Fund by law. Amounts listed under “Capital Outlays and Other Debt Service” represent debt service on obligations and capital expenditures for which the Legislature has by resolution agreed to appropriate funds. “Transfers to Agencies” represents moneys appropriated for the operation of the Health Facilities and Services Administration or, after the dissolution of that Administration, the Department of Health. General Fund revenues, expenditures and transfers as presented in the table differ from the General Fund revenues, expenditures and transfers as presented in the financial statements of the Commonwealth, as the latter statements reflect an expanded General Fund entity in accordance with generally accepted accounting principles.

(p) Preliminary

(c) Current budget.

(1) Includes certain non-recurring revenues totaling \$244.1 million.

(2) Consists of net revenue from General Fund's non budgetary funds plus a reserve for future tax refunds reduced by estimated tax refunds.

(3) Consists of amounts to pay principal of and interest on general obligation bonds and notes of the Commonwealth. Does not include amounts deposited directly to the Redemption Fund from non-General Fund revenues.

(4) Consists of proceeds of Commonwealth tax and revenue anticipation notes and borrowings from Government Development Bank.

(5) Consists of repayment of Commonwealth tax and revenue anticipation notes and borrowings from Government Development Bank.

Source: Department of the Treasury

### *Budgeted Fiscal Year 2005 Compared to Preliminary Fiscal Year 2004*

The General Fund budget for fiscal year 2005, which commenced on July 1, 2004, provides for total net revenues of \$8.309 billion, which represents an increase of \$324 million, or 4.1%, over the budget for fiscal year 2004. Total budgeted net revenues and actual net revenues of the General Fund for fiscal year 2004, which ended on June 30, 2004, were \$7.925 billion and \$7.985 billion, respectively.

The major changes in budgeted revenues for fiscal year 2005 compared to actual revenues for fiscal year 2004 are expected to be: (i) projected increases in total income taxes of \$239 million; (ii) projected increases in total excise taxes of \$85 million; and (iii) projected decreases in non-tax revenues of \$5 million. The budgeted General Fund revenues for fiscal year 2005 assumes a 5.7% nominal and 2.9% real growth in gross product, and additional revenues of \$131 million from the new legislative measures described below. Budgeted revenues also include the proceeds of a \$550 million loan from GDB, such loan being secured by tax receivables. Such loan may have a maximum term of ten years.

As a means of increasing revenues for fiscal year 2005, the following laws have been or are expected to be enacted: (1) a “sunset provision” which enables early retirement or “rollover” of certain individual retirement account funds without penalties under the Commonwealth’s income tax law; (2) a one-year “sunset provision” for variable annuities by insurance companies in the United States held by Puerto Rico citizens for “rollovers” to variable annuities by Puerto Rico insurance companies; and (3) a “sunset provision” to lower all long-term capital gains tax rates by 50%. In particular, gains realized from the sale or exchange of a capital asset by resident individuals, if held for more than six months, will be taxed at a rate of 5% (6.25% in the case of corporate taxpayers) if located in Puerto Rico and at a rate of 10% (12.5% in the case of corporate taxpayers) if located outside Puerto Rico. Similarly, lump sum distributions by resident individuals on income from pensions will be taxed at a rate of 10%.

### *Preliminary Fiscal Year 2004 Compared to Fiscal Year 2003*

Preliminary General Fund total net revenues for fiscal year 2004 were \$7.985 billion, representing an increase of \$393 million, or 5.2%, from fiscal year 2003 net revenues. This amount excludes proceeds of a loan of \$233 million obtained from GDB, which is included as part of “Proceeds of notes and other borrowings.” The loan has a term of ten years, and may be repaid sooner to the extent that sufficient revenues are available for such purpose. This amount also excludes \$82 million of additional non-recurring revenues. The major changes in revenues from fiscal year 2003 were: (i) increases in total income taxes of \$378 million, mainly resulting from increases in income taxes from individuals of \$203 million and in income taxes withheld from non-residents of \$114 million; (ii) increases in total excise taxes of \$42 million; and (iii) decreases in other revenues of \$65 million, mainly as a result of a decrease in miscellaneous non-tax revenues of \$59 million. Approximately \$170 million of the increase in total income taxes for fiscal year 2004 relates to the collection of past taxes as a result of an incentives plan implemented by the Secretary of the Treasury.

Preliminary total cash expenditures for fiscal year 2004 were \$8.004 billion, which amount excludes certain amounts related to fiscal year 2004 but to be disbursed in fiscal year 2005. This amount also excludes approximately \$293 million of additional expenditures that were not originally budgeted and are expected to be covered with reserve funds (\$50 million), the reimbursement of certain federal education funds (\$141 million), and other sources. After considering (i) debt service payments (separately identified in the table as “Transfers to Redemption Fund”), (ii) \$227 million in net borrowings from GDB and other sources, and (iii) \$63 million in other income from the General Fund’s non-budgetary funds, the ending cash balance of the General Fund decreased from \$179 million at the end of fiscal year 2003 to \$109 million at the end of fiscal year 2004.

### *Fiscal Year 2003 Compared to Fiscal Year 2002*

General Fund total net revenues for fiscal year 2003 were \$7.592 billion, representing an increase of \$138 million, or 1.8%, from fiscal year 2002 revenues. This amount excludes proceeds of a loan of \$250 million obtained from GDB, which is included as part of "Proceeds of notes and other borrowings." The loan has a term of five years, and may be repaid sooner to the extent that sufficient revenues are available for such purpose. The major changes from fiscal year 2002 were: (i) increases in income taxes from individuals of \$67 million and in corporate income taxes of \$71 million; (ii) increases in excise taxes on alcoholic beverages and cigarettes of \$83 million, and increases in motor vehicle excise taxes of \$81 million; (iii) an increase in electronic lottery revenues of \$32 million; and (iv) a decrease in miscellaneous non-tax revenues of \$124 million and in income taxes withheld from non-residents of \$66 million. The decrease in miscellaneous non-tax revenues relates to certain special administrative measures that had been implemented by the Secretary of the Treasury in fiscal year 2002 and that do not apply to fiscal year 2003.

Total cash expenditures for fiscal year 2003 were \$7.590 billion, which amount excludes certain amounts related to fiscal year 2003 but disbursed in fiscal year 2004. This amount also excludes \$150 million of additional expenditures that were not originally budgeted and were covered with reserve funds, federal fiscal relief funds and other sources. The principal reason for these higher expenditures was higher than anticipated education costs. After considering (i) \$332 million in debt service payments (separately identified on the table as "Transfers to Redemption Fund"), (ii) \$238 million in net borrowings from GDB (which includes the \$250 million loan mentioned above) and other sources, and (iii) \$79 million in reserves for future tax refunds reduced by estimated tax refunds (separately identified on the table as "Other Income (refunds)"), the ending cash balance of the General Fund was reduced from \$350 million at the end of fiscal year 2002 to \$179 million at the end of fiscal year 2003.

### *Fiscal Year 2002 Compared to Fiscal Year 2001*

General Fund total revenues for fiscal year 2002 were \$7.454 billion, representing an increase of \$492 million, or 7.1%, from fiscal year 2001 revenues. The major changes from fiscal year 2001 were: (i) an increase in income taxes from individuals of \$190 million; (ii) increases in Commonwealth excise taxes of \$124 million; (iii) an increase in miscellaneous non-tax revenues of \$262 million; and (iv) a decrease in income taxes withheld from non-residents of \$113 million.

The increase in miscellaneous non-tax revenues relates to certain special revenue raising measures adopted by the Secretary of the Treasury in fiscal year 2002. Such measures included the transfer to the General Fund of funds on deposit in a contingency fund related to the sale of PRTC stock and of certain compulsory insurance premiums, the sale of certain tax receivables to GDB, and savings generated by the refinancing of certain Commonwealth bonds.

Total cash expenditures for fiscal year 2002 were \$7.026 billion. After considering (i) \$275 million in debt service payments (separately identified on the table as "Transfers to Redemption Fund"), (ii) net repayments of \$39 million to GDB and other sources, and (iii) \$111 million in other sources from the General Fund's non-budgetary funds, the ending cash balance of the General Fund increased from \$125 million at the end of fiscal year 2001 to \$350 million at the end of fiscal year 2002.

## Major Sources of General Fund Revenues

### *Income Taxes*

The Commonwealth's income tax law, the Internal Revenue Code of 1994, as amended (the "PR Code"), imposes a tax on the income of individual residents of Puerto Rico, trusts, estates, and domestic and foreign (if engaged in a trade or business in Puerto Rico) corporations and partnerships at graduated rates. A flat tax is imposed on certain payments made to non-residents of Puerto Rico, which is collected through an income tax withholding.

*Individuals.* Resident individuals are subject to tax on their taxable income from all sources. The PR Code has five tax brackets for individuals with tax rates of 7%, 10%, 15%, 28%, and 33%. Dividend income from Puerto Rico corporations and certain qualifying foreign corporations is taxed at a rate of 10%.

Gain realized from the sale or exchange of a capital asset by resident individuals, if held for more than six months, is taxed at a rate of 20%. It is taxed at a rate of 10% if the capital asset consists of certain property located or deemed located in Puerto Rico. Gains realized by Puerto Rico resident individuals, trusts and estates from the sale of stock of certain Puerto Rico corporations in an initial public offering made prior to January 1, 2008 are subject to a special capital gains rate of 7%.

On August 22, 2004, the Governor signed into law Act 226 to provide a temporary reduction in the long-term capital gains tax rate. Act 226 reduces the long-term capital gains tax rates by 50% for transactions that take place from July 1, 2004 through June 30, 2005, provided that the net long-term capital gain is reinvested in Puerto Rico.

Interest income in excess of \$2,000 on deposits with Puerto Rico financial institutions is taxed at a rate of 17%; the first \$2,000 of interest income from such institutions is exempt from taxation. Interest income on certain qualifying debt obligations issued by Puerto Rico corporations and certain qualifying foreign corporations and paid to resident individuals, trusts, and estates qualifies for a special 10% tax rate.

*Corporations and Partnerships.* Puerto Rico corporations and partnerships are subject to tax on income from all sources; foreign corporations and partnerships that are engaged in a trade or business in Puerto Rico are subject to tax on their income from Puerto Rico sources and on income from sources outside Puerto Rico that is effectively connected with the conduct of their trade or business in Puerto Rico. Unless a corporation or partnership qualifies for partial exemption from corporate income and other taxes under the industrial incentives program (see "Tax Incentives" under *The Economy* above), it is subject to tax at graduated rates.

The PR Code provides for six income tax brackets for corporations and partnerships, with the highest rate (39%) applicable to net taxable income in excess of \$300,000. Gains realized from the sale or exchange of a capital asset, if held for more than six months, are taxed at a maximum rate of 25% or 12.5% if the capital asset consists of certain property located or deemed located in Puerto Rico sold or exchanged after December 31, 2000. Act 226 reduces the long-term capital gains tax rates by 50% for transactions that take place from July 1, 2004 through June 30, 2005. Dividends received by Puerto Rico corporations and partnerships of foreign corporations and partnerships engaged in trade or business in Puerto Rico are subject to general income tax rates. A dividends received credit may be available. A special tax rate of 17% is applicable to dividend distributions of REITs received by corporations. Interest income on certain qualifying debt obligations issued by Puerto Rico corporations and certain qualifying foreign corporations and paid to resident corporations and partnerships qualifies for a special tax rate.

Certain corporations and partnerships covered by the tax incentives acts continue to be subject to a maximum tax rate of 45% on their taxable income. Corporations and partnerships covered by the

Puerto Rico Tourism Incentives Act of 1993, as amended, are subject to a maximum tax rate of 42% on their taxable income. The PR Code also provides for an alternative minimum tax of 22%. Corporations and partnerships operating under a new grant of tax exemption issued under the 1998 Tax Incentives Act are subject to a maximum income tax rate of 7% during their basic exemption period.

The PR Code imposes a branch profits tax on resident foreign corporations less than 80% of whose gross income qualifies as income effectively connected with a Puerto Rico trade or business. The branch profits tax is 10% of an annual dividend equivalent amount, and it applies without regard to the Puerto Rico source of income rules.

Interest from Puerto Rico sources paid to non-resident non-affiliated corporate recipients is not subject to any income or withholding tax. Interest paid to certain related non-resident recipients is subject to a withholding tax of 29%. Dividends paid to non-resident corporate recipients are subject to a withholding tax of 10%. Dividends distributed by corporations (including Section 936 Corporations) operating under new grants of tax exemption issued under the 1998 Tax Incentives Act are not subject to Puerto Rico income tax. However, royalty payments made by such corporations to non-resident recipients are subject to a 10% withholding tax. The basic tax on dividends paid to foreign corporate shareholders of Section 936 Corporations operating under grants of tax exemption issued under prior incentives laws is 10% but is subject to reduction if a percentage of the profits are invested in certain eligible instruments for specified periods of time.

Subject to certain exceptions, payments in excess of \$1,500 during a calendar year made by the Commonwealth and persons engaged in a trade or business in Puerto Rico in consideration of the receipt of services rendered in Puerto Rico are subject to a 7% withholding tax.

The Treasury Department is presently evaluating a plan to reform the Commonwealth's tax system. The objective of this reform would be to reduce the income tax rates for individuals while expanding the tax base by taxing persons not currently participating in the income tax system and simplifying the tax system in order to make its administration more effective. The tax reform is expected to be implemented beginning on January 1, 2006. The Treasury Department expects that the tax reform will produce additional General Fund revenues.

#### *Excise Taxes*

The PR Code imposes a tax on articles and commodities that are imported into or manufactured in Puerto Rico for consumption in Puerto Rico and a tax on certain transactions, such as hotel occupancy, public shows, and horse racing. The excise tax on certain articles and commodities, such as cigarettes, alcohol and petroleum products, is based upon the quantity of goods imported. The excise tax on motor vehicles is based on its suggested retail price. The PR Code imposes a tax at an effective rate of 6.6% of the F.O.B. factory price for imported goods and 3.6% of the sales price of goods manufactured in Puerto Rico, except sugar, cement, cigarettes, motor vehicles and certain petroleum products, which are taxed at different rates. Goods to be used by the government, except for motor vehicles and construction equipment, are not exempt. Exemptions apply to certain articles, such as food and medicines, and to articles designated for certain users.

#### *Other Taxes and Revenues*

Motor vehicle license plate and registration fees comprise the major portion of license tax receipts.

Non-tax revenues consist principally of lottery proceeds, documentary stamps, permits, fees and forfeits, proceeds of land sales and receipts from public corporations in lieu of taxes.

Revenues from non-Commonwealth sources include customs duties collected in Puerto Rico and excise taxes on shipments of rum from the island to the United States mainland. The customs duties and excise taxes on shipments are imposed and collected by the United States and returned to the Commonwealth. The excise tax on shipments of rum from Puerto Rico and other rum producing countries is \$13.50 per gallon. Of this amount, \$13.25 per gallon was returned to the Treasury of Puerto Rico during the period from July 1, 1999 to December 31, 2003. Effective January 1, 2004, the amount returned was reduced to \$10.50 per gallon. However, legislation is currently pending in both houses of the United States Congress that would extend the period during which the tax returned to Puerto Rico would remain at \$13.25 per gallon until December 2005, or, alternatively, at \$13.25 per gallon until September 2004 and then increase to \$13.50 per gallon from October 2004 to December 2005, depending upon which version is enacted.

### *Property Taxes*

Personal property, which accounts for approximately 53% of total collections of taxable property, is self-assessed. Real property taxes are assessed based on 1958 property values. No real property reassessment has been made since 1958, and construction taking place after that year has been assessed on the basis of what the value of the property would have been in 1958. Accordingly, the overall assessed valuation of real property for taxation purposes is substantially lower than the actual market value. Also, an exemption on the first \$15,000 of assessed valuation in owner-occupied residences is available.

Property taxes are assessed, determined and collected for the benefit of the municipalities by the Municipal Revenues Collection Center (“CRIM”), a government instrumentality of the Commonwealth. However, a special 1.03% tax on the assessed value of all property (other than exempted property) imposed by the Commonwealth for purposes of paying the Commonwealth’s general obligation debt is deposited in the Commonwealth’s Redemption Fund.

The following table presents the assessed valuations and real and personal property taxes collected for the fiscal years ending June 30, 1999 through 2003.

**Commonwealth of Puerto Rico**  
**Assessed Valuations and Real and Personal Property Taxes**  
**(Commonwealth and Municipalities Combined)**  
**(in thousands)**

## **Collections of Income and Excise Taxes**

The Department of the Treasury has continued its program for improving tax collections, which began in fiscal year 1986. The program has consisted, in part, of taking the initiative in sponsoring and implementing tax reform, particularly in the areas of excise taxes and income taxes, in order to decrease the incidences of nonpayment of taxes and to expand the taxpayer base. The program has also included (i) improving the methods by which delinquent taxpayers are identified, primarily through the use of computer analyses, (ii) computerizing the processing of tax returns, and (iii) identifying and eliminating taxpayer evasion.

## **Transfers to General Obligation Redemption Fund**

These consist of transfers from the General Fund to the Redemption Fund for the amortization of the principal of and interest on general obligation bonds and notes of the Commonwealth.

## **Components of General Fund Expenditures**

### *Grants and Subsidies*

This category includes grants and contributions to municipalities, public corporations with independent treasuries, and charitable institutions. It also includes items for or included in court awards, damage awards for personal injury or property damage, and payment of taxes and payments in lieu of taxes.

### *Personal Services*

This category includes compensation paid for personal services rendered to the Commonwealth and its public instrumentalities by individuals or firms in the form of salaries, wages, *per diems*, fees, commissions, or other forms of compensation.

### *Other Services*

This category includes compensation for services other than the services referred to above, including advertising, printing, communications, legal expenses, utilities, building and equipment rental and maintenance expenses, insurance premiums and miscellaneous services.

### *Materials and Supplies*

This category includes all articles that ordinarily have a short life and durability, lose their characteristic identity in the process of use, have only nominal value (\$25 or less), or are not otherwise chargeable as equipment.

### *Equipment Purchases*

This category includes items that have three special characteristics distinguishing them from materials: durability, long useful life, and high unit cost. In addition, these items are subject to centralized inventory control as fixed assets.

### *Capital Outlays and Other Debt Service*

Capital outlays are made primarily for land acquisition or interests in land, construction of buildings, roads, bridges and other structures, and permanent improvements and additions. Other debt service includes payments on notes held by GDB to be paid from the General Fund and payments for the

amortization of the principal of and interest on non-general obligations payable from Commonwealth appropriations.

### *Transfers to Agencies*

These transfers include the repayment of loans and advances to other funds, certain refunds, advances from other funds and other receipts, repayment of advances from other funds, grants and contributions to other funds under the custody of the Secretary of the Treasury and other items. The major portion of grants and contributions in recent fiscal years has consisted of transfers to cover the costs of health reform and advances to the municipalities.

### *Other Expenditures*

This category represents recurring General Fund expenditures not appropriately attributable to other expenditure line items, such as advances to government agencies and municipalities, which advances are to be reimbursed to the General Fund by law.

## **Federal Grants**

Puerto Rico receives grants under numerous federal programs. Federal grants to the agencies and instrumentalities of the Commonwealth government, including public corporations, are estimated to be \$4.768 billion for fiscal year 2005, an increase of \$49 million, or 1.2%, from fiscal year 2004. The following table presents revenues from federal grants by broad program areas, which are accounted in the central accounting system of the Department of the Treasury. The figures for fiscal years 2001 and 2002 are actual figures. The preliminary figures for fiscal year 2003 and the estimated figures for fiscal years 2004 and 2005 are based on the information submitted by each agency to the Office of Management and Budget.

### **Commonwealth of Puerto Rico Federal Grants<sup>(1)</sup> (in thousands)**

## **BUDGET OF THE COMMONWEALTH OF PUERTO RICO**

### **Office of Management and Budget**

The Office of Management and Budget's ("OMB") predominant mission is to assist the Governor in overseeing the preparation of the budget of the Commonwealth and supervise its administration in the agencies of the Executive Branch. In helping to formulate the Governor's budget, OMB evaluates the effectiveness of agency programs, policies, and procedures, assesses competing funding demands among agencies, and sets funding priorities.

In addition, OMB oversees and coordinates the Administration's initiatives in financial management, information technology, general management and organizational structure, and supervises the agencies' compliance with the Governor's program and regulatory policies. In each of these areas, OMB's role is to help improve administrative management, develop better performance measures and coordinating mechanisms, and promote efficiency in the use of public funds.

### **Budgetary Process**

The fiscal year of the Commonwealth begins each July 1. The Governor is constitutionally required to submit to the Legislature an annual balanced budget of capital improvements and operating expenses of the central government for the ensuing fiscal year. The annual budget is prepared by OMB, in coordination with the Planning Board, the Department of the Treasury, and other government offices and agencies. Section 7 of Article VI of the Constitution provides that "The appropriations made for any fiscal year shall not exceed the total revenues, including available surplus, estimated for said fiscal year unless the imposition of taxes sufficient to cover said appropriations is provided by law."

The annual budget, which is developed utilizing elements of program budgeting, includes an estimate of revenues and other resources for the ensuing fiscal year under (i) laws existing at the time the budget is submitted, and (ii) legislative measures proposed by the Governor and submitted with the proposed budget, as well as the Governor's recommendations as to appropriations that in her judgment are necessary, convenient, and in conformity with the four-year investment plan prepared by the Planning Board.

The Legislature may amend the budget submitted by the Governor but may not increase any items so as to cause a deficit without imposing taxes to cover such deficit. Upon passage by the Legislature, the budget is referred to the Governor, who may decrease or eliminate any item but may not increase or insert any new item in the budget. The Governor may also veto the budget in its entirety and return it to the Legislature with the Governor's objections. The Legislature, by a two-thirds majority in each house, may override the Governor's veto. If a budget is not adopted prior to the end of the fiscal year, the annual budget for the preceding fiscal year as originally approved by the Legislature and the Governor is automatically renewed for the ensuing fiscal year until a new budget is approved by the Legislature and the Governor. This permits the Commonwealth to continue making payments of its operating and other expenses until a new budget is approved.

### **Financial Control and Adjustment Procedures**

Revenue estimates for budgetary purposes are prepared by the Department of the Treasury, except for estimates of federal grants, which are prepared by OMB based on information received from the various departments and other recipients of such grants. Revenue and federal grant estimates are under continuous review and, if necessary, are revised at least quarterly during the fiscal year. Fiscal control over expenditures is exercised by the Governor, through the Director of OMB, and the Secretary of the Treasury. Monthly reviews and expenditure cut-off procedures are followed to prevent expenditure in excess of appropriations.

During any fiscal year in which the resources available to the Commonwealth are insufficient to cover the appropriations approved for such year, the Governor may take administrative measures to reduce expenses and submit to both houses of the Legislature a detailed report of any adjustment necessary to balance the budget, or make recommendations to the Legislature for new taxes or authorize borrowings under provisions of existing legislation or take any other necessary action to meet the estimated deficiency. Any such proposed adjustments shall give effect to the “priority norms” established by law for the disbursement of public funds in the following order of priority; first the payment of the interest on and amortization requirements for public debt (Commonwealth general obligations and guaranteed debt for which the Commonwealth’s guarantee has been exercised); second, the fulfillment of obligations arising out of legally binding contracts, court decisions on eminent domain, and other unavoidable obligations to protect the name, credit and good faith of the Commonwealth; third, current expenditures in the areas of health, protection of persons and property, education, welfare and retirement systems; and fourth, all other purposes.

A Budgetary Fund was created by Act No. 147 of June 18, 1980, as amended (the “Budgetary Fund”), to cover the appropriations approved in any fiscal year in which the revenues available for such fiscal year are insufficient, to secure the payment of public debt, and to provide for unforeseen circumstances in the provision of public service. Currently, an amount equal to one percent of the General Fund net revenues of the preceding fiscal year is deposited annually into the Fund. In addition, other income (not classified as revenues) that is not assigned by law to a specific purpose is also required to be deposited in the Budgetary Fund. The maximum balance of the Budgetary Fund may not exceed 6% of the total appropriations included in the budget for the preceding fiscal year. As of July 1, 2004, the balance in the Budgetary Fund was \$126 million (this amount includes the fiscal year 2005 appropriation and excludes amounts which will be transferred out of the Budgetary Fund to cover excess expenditures during fiscal year 2004).

An Emergency Fund was created by Act No. 91 of June 21, 1966, as amended (the “Emergency Fund”), to cover unexpected public needs caused by calamities, such as wars, hurricanes, earthquakes, droughts, floods and plagues, and to protect people’s lives and property and the public sector credit. The Emergency Fund is capitalized annually with an amount totaling no less than one percent of the General Fund net revenues of the preceding fiscal year. During the fiscal year 2004 budget process, Act No. 91 was amended to set an upper limit to the Emergency Fund of \$150 million at the beginning of the fiscal year. As of July 1, 2004, the balance in the Emergency Fund was \$154.8 million, including fiscal year 2005 appropriations.

## **Appropriations**

Appropriations in the central government budget of Puerto Rico consist of the following:

(i) General Fund appropriations for recurring ordinary operating expenses of the central government and for contributions to public corporations, municipalities, and private organizations. Such appropriations are made by a single annual law known as the Joint Resolution of the General Budget.

(ii) General Fund appropriations for special operating expenses and for capital expenditures. Such appropriations are authorized by separate law for one or more years for special programs or activities, which may be permanent or transitory.

(iii) Disbursements of Special Funds for operating purposes and for capital improvements. For the most part, such disbursements do not require annual legislative authorization, because they are authorized by previous legislation or by the United States Congress. Federal grants constitute the major part of the resources of the Special Funds.

(iv) Bond Fund appropriations for capital expenditures financed by bonds. Such expenditures occur in one or more years.

In Puerto Rico, the central government has many functions, which in the fifty states are the responsibility of local government, such as providing public education, police and fire protection. The central government provides significant annual grants to the Aqueduct and Sewer Authority, the University of Puerto Rico and to the municipalities. In the summaries of the central government budgets presented below, grants to the University of Puerto Rico are included in current expenses for education and debt service on general obligation bonds is included in current expenses for debt service. Debt service on Sugar Corporation notes paid by the Commonwealth is included in current expenses for economic development, and debt service on Urban Renewal and Housing Corporation bonds and notes and on Housing Finance Authority mortgage subsidy bonds paid by the Commonwealth is included in current expenses for housing.

Approximately 27.9% of the General Fund is committed for payment of fixed charges such as municipal subsidies, grants to the University of Puerto Rico, contributions to the Aqueduct and Sewer Authority, funding for the judiciary branch, rental payments to the Public Buildings Authority, among others, and debt service on direct debt of the Commonwealth. In the case of the judiciary branch, legislation approved in December of 2002 provides that, commencing with fiscal year 2004, the Commonwealth will appropriate annually to the judiciary branch an amount initially equal to 3.3% of the average annual revenue from internal sources for each of the two preceding fiscal years. This percentage will increase until it reaches 4% in fiscal year 2008, and may be further increased upon review, with scheduled reviews every five years.

#### **Fiscal Year 2004 Budget**

The consolidated budget for fiscal year 2004 totaled \$23.782 billion. Of this amount, \$13.577 billion was assigned to the central government. This includes General Fund total resources and appropriations of \$8.295 billion, which represents an increase of \$452 million, or 5.8%, over budgeted amounts for fiscal year 2003. These total resources include \$7.925 billion of total revenues and \$370 million of other sources. The following table presents a summary of the Commonwealth's central government budget for the fiscal year ending June 30, 2004.

(1) Law No. 93 of August 20, 1997 establishes that resources that do not represent revenues, become part of the Budgetary Fund.

(2) Does not include grants received by agencies whose accounting systems are not centralized in the Department of Treasury.

Sources: Department of the Treasury and Office of Management and Budget.

In the fiscal year 2004 budget, revenues and other resources of all budgetary funds totaled \$12.689 billion, excluding balances from the previous fiscal year and general obligation bonds authorized. The net increase in General Fund revenues in the fiscal year 2004 budget, as compared to fiscal year 2003, is accounted mainly by increases in corporate income taxes (up \$49 million), personal income taxes (up \$48 million), excise taxes on motor vehicles and accessories (up \$44 million), retained non-resident income tax (up \$43 million), federal excise taxes on offshore shipments (up \$20 million), excise taxes on alcoholic beverages (up \$14 million), excise taxes on cigarettes (up \$10 million) and decreases in customs (down \$6 million) and tollgate taxes (down \$23 million).

Current expenses and capital improvements of all budgetary funds totaled \$13.176 billion, an increase of \$754.4 million from fiscal year 2003. The major changes in General Fund budgeted expenditures by program in fiscal year 2004 were: increases in health (up \$127.4 million), education (up \$107.2 million), debt service on Commonwealth's general obligation and guaranteed debt (up \$10.6 million), general government (up \$63.3 million), other debt service consisting primarily of Commonwealth appropriation debt (up \$63.2 million), special pension contributions (up \$56.6 million), contributions to municipalities (up \$7.8 million), transportation and communications (up \$7.6 million), public safety and protection (up \$7.5 million), welfare (up \$2.9 million), and housing (up \$2.2 million) and a decrease in economic development (down \$3.9 million).

Preliminary General Fund net revenues for fiscal year 2004 were \$7.985 billion, exceeding the original General Fund budget by \$60.4 million. General Fund expenditures for fiscal year 2004 are estimated at \$8.593 billion, exceeding the original General Fund budget by \$298 million. The higher expenditures occurred in the areas of education, public safety and protection and health. The government expects to cover such shortfalls with expected reimbursements of certain federal funds relating to education, funds previously encumbered but not expended and by transferring funds from the Budgetary Fund.

The general obligation bond authorization for the fiscal year 2004 budget was \$540 million.

### **Fiscal Year 2005 Budget**

The consolidated budget for fiscal year 2005 totals \$24.652 billion. Of this amount, \$13.908 billion is assigned to the central government. This amount includes General Fund total resources and appropriations of \$8.859 billion, which represents an increase of \$564 million, or 6.8%, over budgeted amounts for fiscal year 2004. These total resources include \$8.309 billion of total revenues and \$550 million of additional resources relating to a loan to be obtained from GDB secured by tax receivables. The budget for fiscal year 2005 was approved on July 1, 2004. The following table presents a summary of the Commonwealth's central government budget for the fiscal year ending June 30, 2005.

(1) Does not include grants received by agencies whose accounting systems are not centralized in the Department of Treasury.

Sources: Department of the Treasury and Office of Management and Budget.

The net increase in General Fund revenues in the fiscal year 2005 budget, as compared to the fiscal year 2004 budgeted revenues, are accounted mainly by corporation income taxes (up \$109 million), general 5% excise taxes (up \$55 million), personal income taxes (up \$49 million), motor vehicles and accessories (up \$17 million), federal excise taxes on off-shore shipments (up \$20 million), and customs (up \$10 million) and decreases in cigarettes (down \$9 million) and alcoholic beverages (down \$9 million).

Current expenses and capital improvements of all funds total \$13.909 billion, an increase of \$732.8 million from fiscal year 2004. The major changes in General Fund expenditures by program in fiscal year 2005 are: increases in education (up \$283.9 million), public safety and protection (up \$162.2 million), special pension contributions (up \$52 million), welfare (up \$36.2 million), health (up \$29.6 million), economic development (up \$15.3 million), transportation and communications (up \$8.6 million), contributions to municipalities (up \$5.7 million), and housing (up \$1.7 million) and decreases in other debt service consisting primarily of Commonwealth appropriation debt (down \$8.8 million) and general government (down \$50.0 million).

The general obligation bond authorization for the approved fiscal year 2005 budget is \$550 million.

### **Differences between Budget and Basic Financial Statements**

Revenue and expenditures, as reported by the Department of the Treasury in its Basic Financial Statements, may differ substantially from resources and appropriations in the annual budget for a number of reasons, including the following:

(i) The budgetary accounts are on a cash basis, while financial statements prepared by the Department of the Treasury include accruals and other adjustments as required by government accounting standards.

(ii) Expenditures for current purposes in a particular fiscal year may include amounts appropriated for earlier periods but not previously expended and, conversely, may exclude amounts appropriated for such fiscal year but not expended until later periods.

(iii) Bonds are authorized by the Commonwealth in accordance with a four-year capital improvement program. Since bond sales are determined by bond market conditions and other factors, the amounts of bonds sold for these improvements are financed by advances from the General Fund to the Capital Projects Fund, which are later reimbursed from proceeds of bond or notes sales.

## LITIGATION

The Commonwealth is a defendant in numerous legal proceedings pertaining to matters incidental to the performance of routine governmental operations. Under Act No. 104 of the Legislature of Puerto Rico, approved on June 25, 1955, as amended (“Act No. 104”), persons are authorized to sue the Commonwealth only for causes of actions specified in said Act. The Commonwealth may be liable under Act No. 104 for damages up to a maximum amount of \$75,000 or \$150,000 if the suit involves actions for damages to more than one person or where a single injured party is entitled to several causes of action. Under certain circumstances, as provided in Act No. 9 of the Legislature of Puerto Rico, approved on November 26, 1975, as amended (“Act No. 9”), the Commonwealth may provide its officers and employees, including directors of public corporations and government instrumentalities and mayors of the municipalities of the Commonwealth, with legal representation, as well as assume the payment of any judgment that may be entered against them. There is no limitation on the amount of the judgment that may be paid under Act No. 9.

With respect to pending and threatened litigation, as of June 30, 2003, the Commonwealth has included in its financial statements reported liabilities of approximately \$70 million for awarded and anticipated unfavorable judgments. This amount represented the amount estimated at the time as a probable liability or a liability with a fixed or expected due date, which would require future available financial resources for its payment. The Commonwealth believes that the ultimate liability in excess of amounts provided in the financial statements, if any, would not be significant.

The Commonwealth is a defendant in two lawsuits filed in local and federal district court by an association of insurance companies seeking to recover from the Commonwealth approximately \$74 million of compulsory insurance premiums allegedly belonging to the insurance companies or their policyholders which were transferred by the Secretary of the Treasury to the General Fund. The Commonwealth believes that its ultimate liability, if any, would not be significant.

The Commonwealth is a defendant in a lawsuit alleging violations of civil rights. The amounts claimed approximate \$23 million; however, the ultimate liability cannot be presently determined. No provision for any liability that may result upon adjudication of this lawsuit has been recognized in the financial statements by the Commonwealth. The Commonwealth believes that the ultimate liability, if any, would not be significant.

Several officers of the Commonwealth are defendants in a class action lawsuit filed in 1979 in the United States District Court for the District of Puerto Rico by various inmates who alleged that their constitutional rights were being violated because of overcrowding and lack of adequate healthcare in the island’s correctional system. In 1980, the United States District Court issued a preliminary injunction and required the defendants to provide additional capacity for the cells of the correctional facilities and to improve the healthcare services available to inmates. Fines in the amount of \$280 million have been assessed against the defendants in order to assure compliance with the space and healthcare requirements imposed by the United States District Court. Of the fines imposed, \$150 million have already been paid by the Commonwealth.

[FORM OF OPINION OF BOND COUNSEL]

437 Madison Avenue  
New York, New York 10022-7001  
(212) 940-3000

October 6, 2004

Hon. Juan A. Flores Galarza  
Secretary of the Treasury of Puerto Rico  
San Juan, Puerto Rico

Dear Sir:

We have acted as bond counsel in connection with the issuance by the Commonwealth of Puerto Rico (the "Commonwealth") of \$800,000,000 Tax and Revenue Anticipation Notes of the Commonwealth of Puerto Rico, Series 2005 (the "Notes"). The Notes are dated October 6, 2004, mature July 29, 2005, and bear interest at the rate of three per centum (3.0%) per annum, payable at maturity. The Notes are issuable as registered notes in denominations of \$5,000 and any multiple thereof and are issued under the provisions of Act No. 1 of the Legislature of Puerto Rico, approved June 26, 1987 (the "Act") and a resolution of the Acting Secretary of the Treasury of Puerto Rico authorizing the issuance of the Notes (the "Note Resolution").

We have examined the law and such certified proceedings and other papers as we deem necessary to render the following opinions.

In rendering the following opinions we have assumed the genuineness of all signatures, the authenticity of all documents tendered to us as originals and the conformity to original documents of all documents submitted to us as certified or photostatic copies. As to questions of fact material to our opinion, we have relied upon the certified proceedings and other certifications of public officials furnished to us without undertaking to verify the same by independent investigation.

Based upon the foregoing, we are of the opinion, under existing law, as follows:

1. The Act is valid.
2. The proceedings authorizing the issuance of the Notes have been validly and legally taken.
3. The Notes have been duly authorized and issued to fund a portion of the Commonwealth's projected cash requirements for the remainder of the fiscal year ending June

30, 2005, which requirements result from timing differences between expected disbursements and receipts of revenues, and are valid and binding obligations of the Commonwealth payable solely from the special fund created by the Act designated "Special Fund for the Redemption of Tax and Revenue Anticipation Notes," to the credit of which Fund the Secretary of the Treasury of Puerto Rico is required by and in the manner set forth in the Note Resolution to deposit all taxes and revenues required to be deposited in the General Fund of the Commonwealth received after March 31, 2005 and on or prior to June 30, 2005 plus any balance in the General Fund on April 1, 2005 in respect of taxes and revenues received by the General Fund after the date hereof (and if certain coverage requirements are not met, taxes and revenues so deposited prior to April 1, 2005), subject to certain prior applications as specified therein, sufficient to pay the principal of and interest on the Notes. The full faith, credit and taxing power of the Commonwealth are not pledged to the payments of the Notes.

4. The Internal Revenue Code of 1986, as amended (the "Code") sets forth certain requirements which must be met subsequent to the issuance and delivery of the Notes for interest thereon to be and remain excluded from gross income for Federal income tax purposes. Noncompliance with such requirements could cause the interest on the Notes to be included in gross income for Federal income tax purposes retroactively to the date of issue of the Notes. The Commonwealth has covenanted in the Note Resolution to comply, to the extent permitted by the Constitution and laws of the Commonwealth, with the requirements of the Code and the regulations promulgated thereunder to maintain the exclusion from gross income of the interest on the Notes pursuant to Section 103 of the Code. We are not aware of any provisions in said Constitution and laws that would prevent such compliance. In addition, the Commonwealth has made certain representations and certifications relating to the Notes in its "Tax Certificate as to Arbitrage and the Provisions of Sections 103 and 141-150 of the Internal Revenue Code of 1986" of even date herewith.

Under existing law, assuming compliance with the tax covenants described herein and the accuracy of certain representations and certifications made by the Commonwealth described above, interest on the Notes is excluded from gross income for Federal income tax purposes under Section 103 of the Code. We are also of the opinion that such interest is not treated as a preference item in calculating the alternative minimum tax imposed under the Code with respect to individuals and corporations. Interest on the Notes is, however, included in the adjusted current earnings of certain corporations for purposes of computing the alternative minimum tax imposed on such corporations.

5. The interest on the Notes is exempt from state, Commonwealth and local income taxation.

Except as stated in paragraphs 4 and 5 above, we express no opinion as to any other Federal or state, Commonwealth or local tax consequences of the ownership or disposition of the Notes. Furthermore, we express no opinion as to any Federal, state, Commonwealth or local tax

Hon. Juan A. Flores Galarza

law consequences with respect to the Notes, or the interest thereon, if any action is taken with respect to the Notes or the proceeds thereof upon the advice or approval of other bond counsel.

It is to be understood that the rights of the holders of the Notes and the enforceability thereof may be subject to bankruptcy, insolvency, reorganization, moratorium and other similar laws affecting creditors' rights heretofore or hereafter enacted to the extent constitutionally applicable and that their enforcement may also be subject to the exercise of judicial discretion in appropriate cases.

Very truly yours,
